Hi Councilmember Huizar,

I am writing an email for **no** limits be made for Short Term Rentals. I am an elderly resident on the short term rental platform and have been renting out my guesthouse on the same property on my home in LA, and have had a wonderful experience with visitors from all over the world. It has helped me stay afloat to pay for my mortgage payments. Without this, I would be forced out of my home as I do not have an income after my investments lost value in 2008. I am worried about my ability to support myself. The short term rental platform has helped pay for my mortgage and I am grateful that I am able to stay in my house. I urgently ask that you please do not put limits for vacation rentals.

Sincerely,

Olivia Rud
