Council File No: 14-1635-S8

Comments for Public Posting: While this motion seems to have good intentions, we know that this motion was ill-informed and not fully thought through at its conception. This motion, for no reason at all, adds a gestapo-esque process to try to give teeth to the HSO, which is also a poorly written ordinance in the first place. As this motion is targeted towards RSO's, it will effectively displace all of the mom & pop operators in Los Angeles when the true problem lay in the commercial operators who take over RSO apartments and use them as de-facto hotels. Stop this nonsense immediately - this motion will not accomplish anything except wasted taxpayer dollars thrown after time and resources to try to enforce this whimsical attempt at legislation. If any of the Council really believes that they can stop homesharing in Los Angeles, they'll be in for a surprise come November. Progress & innovation always succeeds, and always finds a way - even through misinformed (and special-interest bound) red tape legislation.
