I strongly support these Homeless Ordinance CF 14-14-1551, CF 14-1656-S1S2 ordinances with no amendments.

Thank You,

Gail Carlson

Dear Sirs,

I am strongly in favor of supporting these ordinances, CF 14-1551.

Our police officers and numerous other agencies have been crippled by the Mayor's interference in this subject and ongoing concern about the increasing homeless population.

My community has a huge problem with early released criminals, meth heroine addicts among numerous mentally ill people living in the Big Tujunga Canyon. There are seven half way houses, several section 8 housing projects and one place that houses numerous mentally disturbed people directly across the street from our Sunland Park and Recreation Facility.

Even with all this we have people living on the sidewalk who will not take or get help that is offered. I know first hand as I have outreached to many that refuse to live indoors, look for work or become productive members of our society.

1. They are ruining my efforts to improve our community on the Beautification Committee
2. Brand new trees were planted and thirteen were hacked apart by one of these people
3. Many lie on the sidewalk pan handling and make people uncomfortable going into the stores they are cascading in front. Many urinate and defecate in public as well as wash themselves in drinking fountains!

Please take my email here as being a strong supporter for the greater population of Angelenos who are not fairly being represented by our elected officials on this homeless issue.

We deserve to walks on sideways without the transients carts and belonging stashed for an unlimited time. It is in many cases a bio hazardous situation

Please do not further allow our parks and sidewalks be the dumping ground anymore storing illegally filled shopping carts and the items inside them!

(parks storage ordinance) and CF 14-1656/S1, S2 (sidewalks storage ordinance; 8/12/15hr. in Homelessness and Poverty Committee)

Thank You,

Gail Carlson

Re: (parks storage ordinance) and CF 14-1656/S1, S2 (sidewalks storage ordinance; 8/12/15hr. in Homelessness and Poverty Committee)

Dear Elected Officials;

As one of your tax paying constituents I am adding my voice to those that are asking for support of CF 14-1551.

This is obviously a hot button issue that not only affects the downtown and surrounding area, but the farthest outreach of the city boundaries and is causing untold damages to our canyon and wash area, in addition to our public streets.

With the impending rain predicted this fall/winter, lives may be in serious jeopardy with the amount of people living in our canyon. If we don't get a handle on this now and start being proactive in our response those who are setting up encampments on the city streets, then this fall/winter will turn our area into a mountainous version of Slab City.

This is not the time to back off. The bigger picture is that this is affecting bringing new tax paying businesses to our community and keeping tax paying businesses here. It affects our home values, which also bring revenue to the city. If our officials do not wish to look at this as a "Quality of Life" issue, then look at it as a financial issue.

As representatives of the communities you are responsible for, I am imploring you to stand strong on this issue and not allow it to be squashed.

Respectfully,

Nancy Shannon
Sunland homeowner
