LAAHNC Supports Los Angeles City Council Helicopter Regulation Resolution

George Abrahams
Beachwood Canyon
Neighborhood Association

Dear City Councilmembers,

John Bailey
Southeast Torrance
Homeowners Association

The Los Angeles Area Helicopter Noise Coalition works to reduce helicopter noise in Los Angeles. LAAHNC strongly supports the proposed City Council Resolution for helicopter flight regulations, and thanks the Rules, Elections, Intergovernmental Relations, and Neighborhoods Committee for their approval of the Resolution on March 18th.

Gerry Hans
Friends of Griffith Park

There are many reasons why regulations are needed, as illustrated by the following example. Data from the FAA's WebTrak system for Saturday, February 13, 2016 identified 85 helicopter flights at low altitudes over Griffith Park, the Hollywood Sign, and the Griffith Observatory in a single 14-hour period. This averages one flight every 10 minutes, and there is little doubt that the vast majority are tour operators. These helicopters are not fighting fires or patrolling for the public safety. They are disturbing the peace and quiet offered by Griffith Park and its surrounds, and diminishing our quality of life in the City of Los Angeles.
