Brief Summary: SB 608 would drastically curtail law enforcement ability to deal with problem homeless populations. This bill does not balance public safety needs with the needs of the homeless and does not address the causes of homelessness or offer solutions to this problem, but instead poses a threat to public safety; therefore, we support the City Council Resolution opposing this Bill.

Council File #15-0002-S21. Made by J. Price, second L. Samson.

COMMUNITY IMPACT STATEMENT: SB 608 would drastically curtail law enforcement ability to deal with problem homeless populations, in particular those with drug addiction problems and those suffering mental illness. This bill does not balance public safety needs with the needs of the homeless and does not address the causes of homelessness or offer solutions to this problem, but instead poses a threat to public safety. Council File #15-0002-S21.

- Motion approved via voice vote.

b. Motion stating that the Greater Valley Glen Council is strongly opposed to the new DONE requirements that Neighborhood Councils must use a Website Vendor that is on the approved list provided by DONE. The GVGC has had the same vendor for a number of years and is very happy with the service and cost. The ten vendors on the approved list are considerably more expensive. We are also very disappointed our current vendor, Aaron Devandry was not given the opportunity to be on the list. He provides website service to a number of NCs and has a depth of knowledge and understanding of our mission. When such a drastic measure is imposed on NCs, they should have an opportunity to be part of the discussion before a decision is made. We should be given more noticed and ample time to address such a change should be given. We request reversal of this mandate made by J Price, second, L. Samson.
