Dear Ms. Dickinson,

I am a homeowner who lives on a quiet street just south of Olympic in the 1000 block. We've raised a family in the beautifully diverse neighborhood. I support the HPOZ for the Miracle Mile with Olympic and all streets above Eighth intact. I'm emailing to urge you to vote YES to create an HPOZ in the Miracle Mile before the developers move in an McMansion the Miracle Mile.

Sincerely,

Gary Tieche

Dear Ms Dickinson,

I strongly and passionately support the Miracle Mile Historic Preservation, including Olympic and our homes above 8th Street. Please help us protect and preserve our wonderful, ethnically diverse, architecturally beautiful, quiet neighborhood. Please save our neighborhood.

My name is Patty Clark and I happily live at 1036 South Burnside Avenue, LA 90019. I own my home and have lived there since July 1997. My husband and I raised our son there, who has since graduated from college and is now living in San Francisco.

I contributed financially to YES ON HPOZ and I can't express enough how much the preservation of our community and its architectural integrity means to me and my family and my neighbors. As neighbors, we take care of one another, we share backyard grown vegetables. We want to preserve this. We bought into this neighborhood because of the size of the homes and the feel of the community: single family homes, ethnic diversity, no McMansions, a neighborhood feel.

I know one of the Opposition Members, one of the NO HPOZ -- he flipped the home next to me. His motive is money. My motive is community, and peace in our unique to LA neighborhood. PLEASE help us preserve this wonderful home and neighborhood. We are counting on you!

Sincerely and with thanks,  
Patty Clark.

Dear Ms. Dickinson,

I am writing you today, in order to inform you of my wife's, and my support, for the proposed Miracle Mile Historic Preservation Overlay Zone. We live on Sierra Bonita Ave., just north of Olympic Blvd. Our home was built in 1930, and it had just undergone a major restoration before we purchased it in 2009. We love the character and architecture of our home, and the surrounding neighborhood! We would be devastated, if any of the other beautiful examples of early and mid 20th century architecture, located within the borders of the proposed HPOZ, were to be replaced with the type of modern box style homes, which we have noticed being built in some of our surrounding neighborhoods. We urge you to please support the Miracle Mile HPOZ!

Thank you so much for your attention, and we hope we can count on your diligent assistance, in support for the MM HPOZ proposal.

Sincerely,

Ted Bernstein
