Dear Councilmember David Ryu, Councilmember Herb Wesson, and Members of the Planning and Land Use Management Committee:

I support the Miracle Mile Historic Preservation Overlay Zone (HPOZ) as approved by the Cultural Heritage Commission and request that the historic areas excluded by the City Planning Commission be reinstated.

I appreciate your ongoing efforts to protect my neighborhood. The Miracle Mile HPOZ will save our historic homes and multifamily buildings and bring much needed stability to our unique neighborhood.

Thank you,

Dear Honorable Chair/Member,

Please support the Historic Mid-City MPOZ.

Very important for the happiness of the residents, business and lower expenses. It is significantly important for the safety of the residents, city and the character of the City as a general.

The success of the purpose of happiness, a quiet night, is a harmonious community, local business, and trusted neighbors.

I have lived in the Historic Mid-City for 26 years, through my life in the area there comes to know Los Angeles and I have chosen to appreciate the residents and business of the City Government. I understand being perceived as being someone who is likely people, sharing and support for the business. Living in the Historic Mid-City I am able to understand by his job as my job was, further enhancing my quality of life in the city. (It is not a responsibility to our politicians and citizens, I hope for complete for and for products.)

If there are historical, historic, vintage, historic buildings etc. people experience someone or some other, developers were to turn into a profit, where the long-term high and middle and high end of the market. The kind of high quality would be the kind to attract visitors for many to the point I would like to give my job and ability to provide valuable services in the People's Library.

Forced to move there has been interactions with neighbors and people in the community, with whom I have formed friendships and good neighborhood ties over the decades.

In an era with rapid speculative development, neighborhoods seem to be sold off. The community understands that there has been the character of being a neighborhood where there is no loss of character and history. The kind of high quality would be the kind to attract visitors for many to the point I would like to give my job and ability to provide valuable services in the People's Library.

It is not for every individual, my income, which should be enough to meet the cost of living, but it is a priority for me.

Thank you for your kind consideration.

Council File # 140183-S1

Dear Honorable Council Members,

Please support the Maricle with 10PTVZ.

We're important for the happiness of the residents, friends and business in the neighborhood, in particular the integrity of the community and the character of the City as a general

The source of the pursuit of happiness, a home right, is a home in the community, local friends, and trusted neighbors.

I have lived on the Maricle for 26 years, through my life on the street I have come to know Los Angeles and have come to appreciate the policies and values of the City Government. I make my living providing caregiving services for elderly people, offering and support for the families. Living on the Maricle that I can still be committed to my job, while further enhancing my quality of life in the city. (It will be rewarding to be an politician and financial change for myself and my neighbors.)

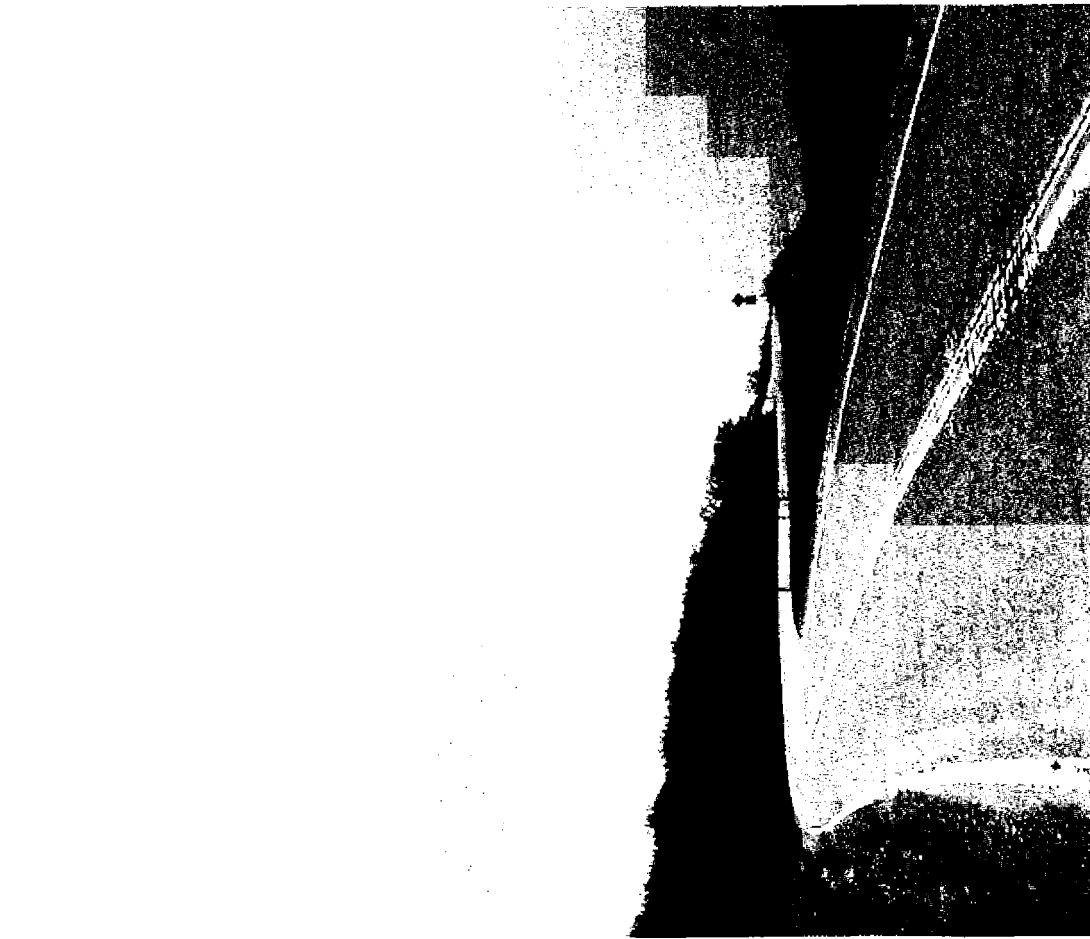

It where are beautiful, clean, vibrant, beloved building, one, a private, tight-knit community or real estate developer were to take on a public interest. Erecting colonial high end residential and high end of mid-level quarters I would be forced to move rather than stay in the place I would love to give up my job and ability to provide valuable services to the people I serve.

For all to ever close their connections with neighbors and friends in our community, with whom I have formed friendships and good neighborhood relationships.

In areas with rapid population development, neighborhoods seem to be on their way to becoming communities that have lost the character of being a neighborhood. They have lost their way, with Los Angeles, in all historic and historic that have become communities, places that feel like a neighborhood, with community in each. Allowing for a private developer to take over the community, the people who live there, the history and community relationships have become unrecognizable to all the former participants. To ensure developers that build in the area provide, so neighbors remain connected with each other in the area.

More for our neighborhood, my income, which should be enough to meet the cost of living, even though, as a private

ing area.
Thank you for your kind consideration.
