RE: CASE No. 140090 – 3923-3941 North Hopevale Drive

To Whom It May Concern,

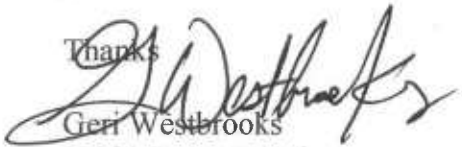

I am writing this letter to you, since I am unable to attend the public hearing scheduled on Tuesday, April 14, 2015. I have countless concerns with regards to the development of this house at the above reference property address, as I live on Rayneta Drive, which is on the approved haul route. Traffic has been a big problem and if Rayneta Drive becomes the haul route of this new residential development then I am extremely concerned, as well as all of our neighbors. There will be immense disruption of traffic flow from the dump trucks apparently making more than 200 trips through the canyon due to the grading of this site.

Furthermore, my house is positioned on a very narrow, wavy street and is not set back from the street. Two vehicles that are passing each other right in front of my house at the same time create a strong possibility that a tall vehicle, such as a dump truck, could hit the fascia and gutters of my house. The heavy trucks driving up and down the street have a potential to cause cracks in the road as well.

Seeing as though no one on our street is in favor of this development, I don't understand why another route has not been deemed.

I want to thank you for your time and hope that you take this letter into consideration as you make final decisions on the haul route.

Thanks

Geri Westbrook
