3. Ground floor commercial uses shall be built to the property line or prevailing setback, whichever applies.
4. Surface parking lots as a main use are prohibited.

Building Form and Massing

5. With the exception of additions to the rear of the building, any alterations or additions to existing buildings shall be built to the property line or maintain the prevailing setback, where a prevailing setback is different from the property line. Storefronts and building entryways may be recessed as long as the main

structural elements (structural bays) are built to the property line or prevailing setback, as applicable. In no event shall the setback exceed two feet.

6. All new buildings shall be built to any property line abutting Broadway and any perpendicular street. The following shall also apply:
 - a. The minimum streetwall (building wall along the sidewalk) shall be 100 feet in height and, south of 4th Street, the maximum shall be 150 feet in height. Heights below 100 feet may be permitted by an action of the Zoning Administrator, in accordance with LAMC Section 12.24X.
 - b. Not less than 95% of the streetwall shall be built to the property line or prevailing setback.
 - c. For new buildings or additions south of Fourth Street, portions of buildings above 150 feet shall be stepped back from the front and side property lines a minimum of 30 feet.
 - d. A break in the streetwall (building wall along the sidewalk) may be permitted for a distance not to exceed the linear feet required for pedestrian and vehicular access, when vehicular access cannot be obtained from a side street or an alley as determined by the Director of Planning, in consultation with the Department of Transportation (DOT).
7. The lot coverage for portions of buildings over 150 feet shall be no less than 30% of the lot and no more than 40% of the lot.

Parking

8. No parking shall be permitted between the building and any abutting street.
9. Parking shall be located to the rear of the building, underground or enclosed within a structure.
10. Ground floor commercial uses at a minimum depth of 25 feet shall be provided in any parking structure fronting Broadway or any perpendicular street.

Ground Floor Treatment

11. The minimum floor-to-ceiling height of the ground floor of any new building shall be 15 feet, except a portion of the ground floor commercial/retail space may have a ceiling height of 9 feet as depicted in Exhibit A.
12. All new construction or the addition of floor area to an existing building or structure fronting substantially or in part on a public street shall provide at least one ground floor pedestrian entrance to each premise or storefront from a public street or pedestrian walkway. Entrances to residential lobbies or primary building lobbies shall be more prominent than other entrances along the public street.
13. A minimum of 70 percent of the building facade at the ground level abutting Broadway shall consist of doors and transparent windows.

Urban Design

14. Corporate establishments and formula or retail businesses shall be designed to comply fully with the Broadway Design Guide.

Mechanical Equipment

15. All structures on the roof, including air conditioning units, mechanical equipment, vents, skylights, solar panels, parapets etc., shall not be visible from the street at ground level.
