Impact Information

Date: 06/14/2015

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 15-0458-S1

Agenda Date:

Item Number:

Brief Summary: The Atwater Village Neighborhood Council submits the following Community Impact Statement in favor of enabling the use of greywater systems in residential properties.

Additional Information: Given the historic drought that Los Angeles is currently experiencing, and overwhelming modeling that shows that our city's future is likely to experience greater climate instability, it is imperative that we seek smart and sustainable water solutions. The use of greywater in residential properties is one such solution.

Los Angeles City Hall
200 North Spring Street, Room 395
Los Angeles, CA. 90012

The Atwater Village Neighborhood Council submits the following Community Impact Statement in favor of enabling the use of greywater systems in residential properties

COMMUNITY IMPACT STATEMENT

This Community Impact Statement is based on the action taken at the regularly scheduled Board of Governors meeting on June 11th 2015; the Atwater Village Neighborhood Council has adopted the following motion by a vote of 13 yes, 0 no, 0 abstention, and has directed that this Community Impact Statement be filed with the City Clerk's office reflecting its position.

The Atwater Village Neighborhood Council supports Councilmember Bonin and Krekorian's greywater motion (CF 15-0458-S1). Given the historic drought that Los Angeles is currently experiencing, and overwhelming modeling that shows that our city's future is likely to experience greater climate instability, it is imperative that we seek smart and sustainable water solutions. The use of greywater in residential properties is one such solution. We urge the Los Angeles City Council to take this important step and be a leader in creating a smarter and healthier future.

Motion by Torin Dunnivant: "I move that the AVNC approve a Community Impact Statement in favor of Council File 15-0458-S1 which enables the use of greywater systems in residential properties."

Seconded by: Courtney Morris
