Agenda Date: 11-02-2015

Item Number: 8a

Summary: The Greater Valley Glen Council opposes the Motion for revisions to the Green Building Codes requiring the use of greywater systems in all applicable circumstances as we find the language too vague and lacking specifics. We are concerned about the impact of establishing new standards that are incorporated in the Green Building Codes as a requirement for new construction. We support implementing grewater systems but recommend a program that provides incentives for installation of such systems on a voluntary basis.
