Chair, Planning and Land Use Management Committee
200 North Spring Street, Room 465
Los Angeles CA 90012

Re: BOMA/GLA Support for Proposed Greywater Systems and Groundwater Discharge Ordinance

Dear Council Member Huizar:

On behalf of BOMA Greater Los Angeles, I would like to express our support for the proposed water conservation ordinance. As you know, commercial high rise office building owners have been implementing water saving programs for many years. This ordinance continues to guide owners toward certain devices and systems that will conserve millions of gallons of water each year, while saving thousands of dollars for tenants.

We appreciate the continued leadership of the Los Angeles City Council and Mayor Garcetti's office toward a more sustainable built environment.

With regards,

Martha Cox-Nitikman
Vice President, Public Policy
