SUMMARY

In a report to Council dated October 18, 2018, LADOT proposes various changes of the Rules and Procedures for PPD necessary to address changes in residential parking demands in the City and to clarify and improve the administrative process of the Preferential Parking Program. Changes include various administrative and procedural improvements, stipulating that all new PPDs be requested by the Council Office and to eliminate resident groups and neighborhood associations from the list of authorized requestors, include non-traditional residential areas such as mixed-use neighborhoods, to include additional criteria such as adjacent major commercial construction, and other resident service and application guidelines.

At its meeting held October 24, 2018, the Transportation Committee discussed this matter with LADOT staff. Department representatives highlighted various PPD rules and procedure changes. Committee recommended Council approve LADOT's report recommendations and the lists of revised rules and procedures for PPDs.

Respectfully Submitted,
