Dear Councilmembers,

I urge you to SUPPORT the proposed Mobility Plan 2035, which will make LA a more livable, fair, and accessible city.

The plan will make streets safer and open to all - children, people with disabilities, and seniors. It will open economic opportunity to all, including people who are currently shut out of good jobs because their economic circumstances or disabilities prevent them from owning a car.

The plan will also lead to a greener and less congested LA. It properly balances the need to maintain a robust road network with the recognition that, absent vast expenditures and destroying communities through eminent domain, future mobility growth has to include other modes because the roads are at capacity. It therefore properly establishes transit and active transportation as a priority alongside cars.

This plan will make life better for your constituents. I urge you to SUPPORT the proposed Mobility Plan.

Best,

Joseph M. Sanderson  
810 S. Spring St. Apt. 901, Los Angeles, CA 90014.
