Dear Honorable Councilmembers:

I support adopting the Mobility Plan 2035, including *ALL* of its proposed networks. As a bike rider and husband, I *strongly* support this Plan because I believe that it will help make L.A. streets better for all of us walking, biking, taking transit and driving. If we want Los Angeles to continue to be a great city, we need to support and encourage biking. It's a great way to travel around town, it's healthy and it's fun.

A well-connected network of protected bike lanes and other complete streets improvements the Plan includes will give people healthier options to get around our neighborhoods and our whole city. Calmer traffic and safer streets are critical to protect and enhance our quality of life. We need this plan to build on the progress made by the 2010 Bicycle Plan and make all modes of transportation work together for our city. The modal networks in the Plan were carefully crafted to balance the needs of all who will use them. We can't afford to piecemeal them to appease local naysayers without undermining their citywide utility.

Please approve the Mobility Plan 2035 with no changes so that we can all travel safely on the streets of L.A.

Sincerely,

John Ruby

2225 Loma Vista Pl.

Los Angeles, CA 90039
