Dear Miss Dickinson,

Please add for council file 15-0728.

Thanks.

April 5, 2017

Dear Members of City Council,

Council File 15-0728

Thank you for making efforts towards preserving what is left of the cities RSO units,

The proposed changes are not enough.

Where is the enforcement?

Where are the consequences imposed to applicants or landlords who do not comply?

Amendments can continue to be made but when there is no enforcement, they are meaningless.

There needs to be PROTECTION for RSO UNITS in general without loopholes that allow tenants to be evicted.

Relocation fees are not justified when there is nowhere affordable left to move.

Possible suggestions:

NO EVICTING OR DEMOLISHING buildings built 1978 and prior.

NO EVICTING OR DEMOLISHING buildings who have been consistently occupied.

Please consider the other amendments that are needed to this ordinance.

Many thanks.

Phoenix
