Item Number:

Summary: The Atwater Village Neighborhood Council, supports council resolution 15-0841 introduced by Councilmember Koretz. The drought that is impacting Southern California does not seem to have been mitigated by this most recent winter. Due to that drought, local wildlife, such as coyotes, mountain lions and bears, are desperately searching for water sources further and further into populated areas. It stands to reason that if water can be provided to them within our nature areas by city service agencies, the safety of nearby neighborhoods and the animals' welfare can be preserved. Additionally, we recommend linking these agencies with Natural History Museum and other partners for potential support of these efforts.
