RE: Clean Up Green Up Ordinance (CF# 11-0112 and CF#15-1026) ✓

Dear Members of the Planning Land Use Management Committee,

On behalf of The Trust for Public Land, I respectfully submit this letter in support of the Clean Up Green Up Initiative Ordinance, which we understand will be heard by the Planning Land Use Management Committee in October.

The Trust for Public Land works nationally to conserve land for people to enjoy as parks, rural lands, and other natural places, ensuring livable communities for generations to come. In Los Angeles, this work includes building parks in underserved communities such as Maywood and Watts, ensuring all people- in particular, all children- are within a ten-minute walk of a park, playground, or natural area, as well as preserving open space within the San Gabriel Mountains and surrounding natural lands. Essential to our mission is increasing access to these locations for all Angelenos, making it easier to recreate, connect with nature, and reap the many health benefits provided by being outdoors.

We strongly support the proposed new development standards for the three pilot Green Zones of Boyle Heights, Pacoima/Sun Valley and Wilmington. The Green Zones provide much needed local regulatory tools to address issues arising from the proximity of incompatible land uses - largely industrial land uses close to homes, schools, parks, and other places where vulnerable populations gather. The standards also deal with the cumulative adverse impacts that result from concentrations of certain uses close to such sensitive uses.

In addition, we support the Los Angeles Collaborative for Environmental Justice (Communities for a Better Environment, Coalition for a Safe Environment, Pacoima Beautiful, & Union de Vecinos) in their effort to monitor the ordinance as it moves forward for passage by the full city council to ensure the ordinance contains the strongest local regulatory and land use tools possible, especially regarding the proposed conditional use permit for oil refineries and asphalt manufacturers.

We eagerly anticipate the passage of the Clean Up Green Up policies and we look forward to the success of the three pilot zones, which will lead the way to economic innovations and a healthier, safer, and greener Los Angeles.

Sincerely,

BUSINESS SUPPORT FOR CLEAN UP GREEN UP ORDINANCE

To the Planning Land Use Management Committee Members:

I am a business owner or operator within one of the three LA pilot neighborhoods – Boyle Heights, Pacoima/Sun Valley and Wilmington – and support the proposed Clean Up Green Up Ordinance (CF#15-1026). I strongly support much needed local regulatory tools to reduce and prevent local pollution in our communities, making them better and safer places to live and work. I support Clean Up Green Up business benefits in my community, including help with permitting, compliance with regulations, and help accessing green money-saving government and utility programs. I eagerly anticipate the passage of Clean Up Green Up and look forward to the success of the three pilot zones, which will lead the way to economic innovations and a healthier, safer and greener Los Angeles.

Subject: Clean Up Green Up Ordinance (CF# 11-0112 and CF#15-1026)

Dear Members of Planning Land Use Management Committee,

I respectfully submit this letter in support of the Clean Up Green Up Initiative on behalf of People's CORE, a Los Angeles based non-profit organization. We understand this will be heard by the Planning Land Use Management Committee.

People's CORE strongly supports the proposed new development standards for the three pilot Green Zones of Boyle Heights, Pacoima/Sun Valley and Wilmington. The new standards provide local regulatory tools needed to address issues arising from the proximity of incompatible land uses. The standards also address the cumulative adverse impacts.

People's CORE also supports the Los Angeles Collaborative for Environmental Justice (Communities for a Better Environment, Coalition for a Safe Environment, Pacoima Beautiful & Union de Vecinos) in their effort to monitor the ordinance as it moves forward for passage by the full city council to ensure the ordinance contains the strongest local regulatory and land use tools possible, especially regarding the proposed conditional use permit for oil refineries and asphalt manufacturers.

On behalf of the communities we serve, we eagerly anticipate the passage of the Clean Up Green Up policies and we look forward to the success of the three pilot zones. We believe this will lead the way to economic innovations and a healthier, safer and greener Los Angeles.
