Summary: There are approximately 23,000 unsheltered homeless individuals in the city, and over 7,100 persons are living in vehicles (cars and R.V.s) each night, representing 30% of the population of people experiencing homelessness. The city supports the creation of safe parking locations to accommodate homeless individuals living in their vehicles. These sites provide parking, restroom facilities, case management, and security, and reduce the need for the vehicular homeless to seek places they can legally park in neighborhoods. As of now, there are three operational Safe Parking LA locations throughout the city. There are five potential locations (CD-5, CD-7, CD-10, and two in CD-11) that are in need of funds. In order to ensure the operation of five new safe parking sites, Councilmember Herb Wesson Jr. moves that City Council should approve the transfer of \$890,000 from the Housing and Community Investment Department (HCID) to a new City General Fund contract with the Los Angeles Homeless Services Authority (LAHSA) and authorize LAHSA to enter into contracts with service providers for the operation of these programs. With an LA city ordinance against overnight parking in residential neighborhoods and fewer places to legally park in LA overnight, opening up more Safe Parking LA sites is the best solution that provides a safe and dignified place for people to park their cars overnight. For these reasons, the Los Feliz Neighborhood Council supports CF 15-1138-S15.
