# Los Angeles Homeless Services Authority

Report to the Los Angeles City Council  
Implementation of Safe Parking in Los Angeles

January 17, 2020

**DATA ON SAFE PARKING PROGRAMS**

Data on Safe Parking programs is collected through the Los Angeles Homeless Service Authority's (LAHSA) Homeless Management Information System (HMIS).

*Exit Data*

Data reporting exits to permanent housing as well as exits to interim housing are summed out of the total exits from the program. For example, exits to interim housing at (2/8) indicates that two participants exited into interim housing out of a total of eight participants that exited the Safe Parking program. Unduplicated exits are reported in the bottom row, as some participants may exit the program and then re-enroll in a subsequent month. Data reported below are by number of total participants for both the number of clients served column as well as the exits columns.

*Data Definitions*

LAHSA employs the U.S. Department of Housing and Urban Development's (HUD) definition of permanent housing (PH), which defines PH as community-based housing without a designated length of stay in which formerly homeless individuals and families live as independently as possible. Under PH, a program participant must be the tenant on a lease. For interim housing, the following housing types were included: 1) Emergency shelter, including hotels and motels (regardless of whether or not they were paid for with a voucher); 2) RHY-funded Host Home shelter; 3) Transitional housing for people experiencing homelessness; 4) Safe Haven; and 5) Temporarily staying or living with family/friends.

**METRICS ON SAFE PARKING PROGRAMS**

Table 1 below includes the requested data on the number of people being served and the number of people successfully housed for all LAHSA-administered Safe Parking programs within the City of Los Angeles that were in operation during between 7/1/19-11/30/19.

**Table 1: Metrics for the Entire Portfolio of LAHSA-Administered Safe Parking Programs**
