Sharon –

I would like to submit three documents from another Council File into the Council File for the above case. The prior Council File concerns the City Council's designation of these same buildings as a Historic-Cultural Monument. Two of the documents are relatively small but the third is quite large (about 100MB), so it cannot be emailed to you.

Would you be willing to download all three documents from the other Council File and then submit them to this Council file?

Here are the links to the other Council File for all three documents:

If you feel it is necessary, I could prepare a brief letter describing the relevance of these documents to the present case. Please let me know if I should do that.

Best,

John Henning
