MASTER LICENSE AGREEMENT

1. Master License Agreement

- 1.1. This Master License Agreement sets forth the basic terms and conditions upon which each Site (defined in Section 2 below) is licensed by Licensor to Licensee. Upon agreement between the Licensor and Licensee with respect to the particular terms of a Site, the Parties shall execute a Site License Agreement ("Site License") in the form attached hereto as Exhibit A and incorporated herein by this reference. The Site License may be subject to minor modifications as agreed to by Licensor and Licensee in the future without amending the Master License Agreement. In the event of a discrepancy or inconsistency between the terms and conditions of any applicable Site License and this Master License Agreement, the terms and conditions of the applicable Site License shall govern and control.

2. Site License Agreement

- 2.1. Licensor holds fee and/or other interests in real properties situated in various locations throughout California, Nevada, Arizona, Oregon, and Utah. Each general location licensed is further described in the applicable Site License ("Premises") and the particular portion of the Premises used by Licensee is referred to herein as a "Site" or collectively described herein as "Sites." Subject to the terms and conditions contained in this Master License Agreement and in the Site License relating to a particular Site, Licensor hereby licenses on a non-exclusive basis to Licensee the Site on the Premises owned and or controlled by Licensor as described in the applicable Site License. Each Site License shall act as a separate and independent agreement for each Site. It is the intent of both Parties to incorporate this Master License Agreement into each Site License to supplement and set forth the terms applicable to each of the independent Site Licenses. It is understood and agreed that Licensee's right and license to place an unmanned wireless telecommunications facility on the Premises is non-exclusive. However, the individual Site within the Premises licensed to the Licensee shall be exclusive for Licensee's wireless telecommunications equipment, subject to the terms and conditions of this Master License Agreement and the applicable Site License. Further, Licensee's license and rights granted under this Master License Agreement and the applicable Site License are revocable as stated in Section 7 of this Master License Agreement. The "Commencement Date" for each Site License shall be stated on the applicable Site License.

2.2. Site License Application Procedure for Existing Sites

2.2.1. Within one (1) month of the Effective Date of this Master License Agreement, Licensee shall provide to Licensor the following:

2.2.1.1. Most recent full set of engineering drawings signed by the person professionally responsible for the engineering drawings either by license or law.

2.2.1.2. Copy of the approved Conditional Use Permit (CUP), if required.

2.2.1.3. Copy of the building permit, if necessary.

2.2.1.4. Any other necessary information and data in order to process the Site License(s).

2.3. Site License Application Procedure for New Sites

2.3.1. Licensee shall submit an application, as shown on Exhibit B, and the required administrative fees as stated in Section 21.1 of this Master License Agreement to start the process.

2.3.2. Licensee shall provide any additional information and documents Licensor may request throughout the site licensing process.

3. Use

3.1. The right and permission of Licensee is subordinate to the prior and paramount right of Licensor to use said Premises for the public purposes to which it is now and may, at the option of the Licensor, be devoted. Licensee undertakes and agrees to use said Premises and to exercise this Master License Agreement jointly with Licensor, and will at all times exercise the permission herein given in such a manner as will not unreasonably interfere with the full use and enjoyment of the Premises by the Licensor.

3.2. A Site may be used by Licensee only for the purpose of providing wireless telecommunications services, including transmission and reception of radio communications signals, and the construction, operation, and maintenance of related wireless telecommunications facilities.

4. Term

- 4.1. This Master License Agreement shall have a term of five (5) years, with the option to extend the agreement for five (5) additional five (5) year terms, each of which may be exercised as follows: Within six (6) months of the expiration of the Master License Agreement, Licensor may request in writing to extend the term for an additional five (5) years. LADWP may grant the extension, at its sole discretion, provided that Licensee's account is in good standing and Licensee is in compliance with all of the terms and conditions of the Master License Agreement and any all Site License(s).
- 4.2. The term shall commence on the first day upon which the Master License Agreement is fully executed by all authorized representatives of the parties or as stated in Section 27.13 of this Master License Agreement. The Master License Agreement shall remain in effect and is binding on any successor in interest to either Licensor or Licensee. Such statement does not constitute a waiver of the applicability and requirements of Section 18 of this Master License Agreement.
- 4.3. The term of each related Site License Agreement shall be set forth in the applicable Site License Agreement provided that, the term of any related Site License Agreement shall not exceed the term of this Master License Agreement. Licensee agrees to begin the process of gaining approvals necessary to build a proposed site from outside agencies, such as Planning Department and Department of Building and Safety, immediately after the Execution Date stated on this Master License Agreement Section 27.14 and after sending the Licensor all the necessary documents stated in Section 2.2 of this Master License Agreement. Construction of the Site shall not begin until after a fully-executed Site License is obtained and after a preconstruction meeting is held between the appropriate representatives of Licensee and Licensor.
- 4.4. If, at any time during the term of the applicable Site License, it becomes commercially inadvisable in Licensee's business judgment for Licensee to utilize a Site, or if any required certificate, permit, license or approval is denied, canceled, or otherwise terminated so that Licensee is unable to use the Site for its intended purpose, Licensee may terminate the applicable Site License by notice in writing as stated in Section 7 of this Master License Agreement.

5. Term of Site Licenses

- 5.1. The term of each Site License Agreement shall be the balance of the term remaining under this Master License Agreement.
- 5.2. This Master License Agreement, as incorporated into each Site License, shall remain in full force and effect during the term of that applicable Site License.

6. Holding Over

- 6.1. Hold-over period is the continued presence of Licensee beyond the term of each Site License without an agreement with Licensor having been entered into.
- 6.2. The acceptance by Licensor of rent during any hold-over period shall not be construed to be a grant or approval of any extension of the term or create any new term of the Master License Agreement or any applicable Site License.
- 6.3. Notwithstanding the above, upon expiration of this Master License Agreement or any applicable Site License(s), Licensee shall be subject to all conditions set forth in this Master License Agreement or any particular Site License Agreement(s).
- 6.4. The hold-over license fee stated in Section 8.5 or other applicable sections of the applicable **Site License** shall apply during any hold-over period except as otherwise set forth herein
- 6.5. Should the Licensee find itself in a hold-over period as a result of delay to complete LADWP and City processes caused solely by LADWP, the hold-over license fee in **Site License** Section 8.5 or other applicable sections of the applicable Site License shall not apply.

7. Termination and Surrender of Sites

- 7.1. Regardless of the manner or duration of use or occupancy of said Site and regardless of the permanent character of any works or structures constructed or installed therein or thereon by Licensee, this Master License Agreement may be terminated at any time for any reason or no reason at all at the sole discretion of the Licensor by giving Licensee ninety (90) calendar days' written notice of termination.

- 7.2. Licensor may terminate this Master License Agreement on ninety (90) calendar days' written notice of termination in the event of any failure or refusal on the part of Licensee to keep or perform any of the terms, conditions, provisions, or covenants herein. Notice of termination shall be given by delivering the same to Licensee by mailing the same to Licensee's notice addresses from Sections 8.1.1. and 8.1.2. Failure by the Licensor to terminate this Master License Agreement for noncompliance of the terms and conditions by Licensee shall not constitute a waiver of the terms or conditions.
- 7.3. In the event of termination of this Master License Agreement by the Licensor, the Licensor agrees to refund any unused License Fees. License Fee shall be prorated from the date said Site is restored in a neat, clean and orderly condition as determined by the Licensor.
- 7.4. Licensee may request to terminate this Master License Agreement upon giving ninety (90) calendar days' written notice to Licensor subject to the approval of Licensor.
- 7.5. In addition to obligations imposed on Licensee elsewhere in this Master License Agreement, and upon termination of this Master License Agreement for whatever reason, the Licensee shall be responsible for the following to the extent any of which is caused by or introduced onto the Premises by the Licensee or by anyone acting on its behalf: all cleanup or other costs and expenses including but not limited to, any fines, penalties, judgments, litigation costs, and attorneys' fees incurred as a result of any and all discharge, leakage, spillage, emission of material which is, or becomes, defined as any pollutant, contaminant, hazardous waste or hazardous substance, under all federal, state, local, or municipal laws, rules, orders, regulations, statutes, ordinances, codes, decrees, or requirements of any government authority regulating, or imposing liability or standards of conduct concerning any hazardous substance on, under, or about the Premises, as now or may at any later time be in effect, including without limitation, the Comprehensive Environmental Response, Compensation and Liability Act of 1980 [42 USCS §§9601 et. seq.]; the Resource Conservation and Recovery Act of 1976 [42 USCS §§6901 et. seq.]; the Clean Water Act, also known as the Federal Water Pollution Control Act [33 USCS §§1251 et. seq.]; the Toxic Substances Control Act [15 USCS §§2601 et. seq.]; the Hazardous Materials Transportation Act [49 USCS §§1801 et. seq.]; the Insecticide, Fungicide, Rodenticide Act [7 USCS §§136 et. seq.]; the Superfund Amendments and Reauthorization Act [42 USCS §§6901 et. seq.]; the Clean Air Act [42 USCS §§7401 et. seq.]; the Safe Drinking Water Act
