PROTEST

PROTEST THE LADWP WATER RATE INCREASE!

Why we oppose the five-year rate increase:

- According to the LADWP's own benchmarking study **and** a review by the ratepayer advocate **and** an independent study, LADWP salaries and benefits are higher than comparable utilities, higher than comparable jobs for L.A. City, and higher than comparable jobs across the nation, yet nothing is being done about it except calls for more studies—while LADWP plans a “cost-of-living” raise in 2016.
- The new water rate ordinance lifts the cap that limits the extra charges for “adjustment factors,” which raise your rates in-between the other rate increases. These extra charges will now be unlimited, and they can be increased over and over, without City Council approval.

To protest the new water rate ordinance, just write on a piece of paper (you can use the lower portion of this one):

Your **name** (or the name of the DWP customer)

Your **address** (the property address, not a P.O. Box or billing address)

The words, “**LADWP Water Rate Ordinance**”

The words, “**I protest**” or “**We protest**”

Mail or hand-deliver it to:

City Clerk

200 N. Spring Street, Room 395

Los Angeles, CA 90012

It must arrive **by the morning of February 17** to be counted. One protest per address will count. If half of all DWP customers file a valid protest, the rate hike will not be imposed. It must be on paper to be valid, no e-mail or calls will count, although you can certainly call your City Council representative and express your views. It might help.

I am writing this letter to vehemently PROTEST AGAINST THE PROPOSED WATER
RATE INCREASE

It is not our fault that you cannot manage your company better and continually give more of our money
to the LA City general fund.

You need to find a way to do what you need to do without increasing our rates.

Please reconsider this unnecessary action.

Your disgruntled rate payer.

PROTEST THE LADWP WATER RATE INCREASE!

Why we oppose the five-year rate increase:

- According to the LADWP's own benchmarking study **and** a review by the ratepayer advocate **and** an independent study, LADWP salaries and benefits are higher than comparable utilities, higher than comparable jobs for L.A. - The new water rate ordinance lifts the cap that limits the extra charges for “adjustment factors,” which raise your rates in-between the other rate increases. These extra charges will now be unlimited, and they can be increased over and over, without City Council approval.

RE: LADWP Water Rate Ordinance

We strongly protest this ordinance. In addition to the cost increase, it is truly unfairly written. In pricing tiers, it disregards the reality of weather differences. We live in Woodland Hills which is very hot and dry, compared to West Los Angeles, which is 15 to 20 degrees cooler in the summer and which receives more precipitation in all seasons. Therefore this ordinance is blatantly unfair. Furthermore, the people living in cooler coastal areas tend to be wealthier than people in the hot inland area, and are better prepared to pay higher prices.

If the city worries about water use in the warm San Fernando Valley, and particularly hot Woodland Hills, why do they keep providing building permits for large scale apartment buildings, which have increased the density of this area multifold since we moved here 23 years ago?

PROTEST THE LADWP WATER RATE INCREASE!

Why we oppose the five-year rate increase:

- According to the LADWP's own benchmarking study **and** a review by the ratepayer advocate **and** an independent study, LADWP salaries and benefits are higher than comparable utilities, higher than comparable jobs for LA. City, and higher than comparable jobs across the nation, yet nothing is being done about it except calls for more studies—while LADWP plans a "cost-of-living" raise in 2016.
- The new water rate ordinance lifts the cap that limits the extra charges for "adjustment factors," which raise your rates in-between the other rate increases. These extra charges will now be unlimited, and they can be increased over and over, without City Council approval.

To protest the new water rate ordinance, just write on a piece of paper (you can use the lower portion of this one):

Your **name** (or the name of the DWP customer)

Your **address** (the property address, not a P.O. Box or billing address)

The words, "**LADWP Water Rate Ordinance**"

The words, "**I protest**" or "**We protest**"

Mail or hand-deliver it to:

It must arrive **by the morning of February 17** to be counted. One protest per address will count. If half of all DWP customers file a valid protest, the rate hike will not be imposed. It must be on paper to be valid, no e-mails or calls will count, although you can certainly call your City Council representative and express your views. It might help.

Subject: Protest to the proposed DWP rate increases.

To Whom It May Concern:

This is a letter to express our resolute opposition and protest against the currently proposed DWP rate increases!

We have lived in the San Fernando Valley for 29 years and the high cost of energy and water are placing a severe burden on people as they try to raise their families or attempt to retire in their homes they've paid high taxes and high energy costs on.

Please stop these rate electric and water increases that are making home ownership nearly intolerable.

We oppose any rate increase to the necessities of living as water and electricity!

Sincerely,

Terry M. White + Lucinda Z. White
