Protest-LADWP Proposed Water Rate Restructure and Increases

In the letter date December 2015 LADWP stated that rate increases would provide needed funding for investing in needed infrastructure for providing reliable water supply and encouraging conservation and expanding local water supply projects and meeting regulatory mandates.

It is my opinion, based on my experience regulating LADWP operations in the Owens Valley (see Owens Valley Operations below) that an increase in funding from tax payers will not produce the desired effects LADWP is looking for if there is no change in the way LADWP is currently operated. Below I have listed several recommendations that need to be implemented before any more tax payer money is given to LADWP.

LADWP Owens Valley Operations

During the month of July of 2004 I wrote an Administrative Civil Liability (ACL) for a maximum liability of 1,105,330.00 dollars. The ACL was issued to LADWP due to a sewage spill of 843,000 gallons of sewage from the Independence Waste

15-1543

Treatment Facility which LADWP owns and operates. A day of maintenance and adequate field supervision would have prevented the sewage spill. I have attached the first page of the ACL for your reference.

While performing a joint inspection with California Fish and Game during 2006 we discovered equipment operators with LADWP digging up McGee creek. They had dug a hole 50 feet long and over 6 feet deep in the creek. Their job was to clean debris from the weir station. They were unsupervised and had no maintenance plan or training. The ACL for this violation was given to our Tahoe office to be filed jointly with Fish and Game. Maximum liability for this violation could be as high as 500,000.00 dollars.

While inspecting the Grant Lake Canal I observed an LADWP worker throw a portable generator into the canal. His supervisor was 4 miles to the east and this left the worker unsupervised. At my request the supervisor removed the generator from the canal and cleaned up the oil and gas slick. After many more incidents like this I requested LADWP e-mail me the weekly maintenance schedule for Owens Valley. I informed LADWP I would be making unannounced inspections of maintenance in the Owens Valley.

Recommendations

1. LADWP needs to greatly improve maintenance procedures and training procedures in both Owens Valley and Los Angeles operations. This improvement would free up millions of dollars that could be used for infrastructure improvements.

2. There is a practice within the LADWP of paying 15 to 17 percent higher pay rates to employees than Los Angeles city employees get for the same job. For example, a locksmith for the City of Los Angeles gets a maximum pay rate of 62,974 dollars per year. The same locksmith at LADWP would get a maximum pay rate of 79,176 dollars per year. A civil engineer with Los Angeles City gets a maximum pay rate of 103,376 dollars per year. The same civil engineer with LADWP would get a maximum pay rate of 122,000 dollars per year. The practice of paying higher wages to LADWP employees for similar jobs performed by LA City employee's needs to stop. Millions of dollars can be saved and put towards infrastructure.
3. LADWP Board of Commissioners needs to be disbanded and the responsibility of LADWP given back to the City Counsel. This would allow several million dollars to be used for infrastructure improvements.
4. Billions of gallons of rain water are lost to the sea via the LA River. LADWP needs to build infiltration galleries which would capture 15 to 20 percent of the lost rain water and put into the groundwater basin of Los Angeles. Making more groundwater available for use could reduce the need of water from the Owen Valley reducing the costs of the Owens Valley operations.
5. LADWP needs to make better use of recycled water. When replacing infrastructure recycled water pipes should be installed. Golf courses and most businesses in Los Angeles are currently not using recycled water and they should be.

6. In reviewing the proposed rate changes I found no provision for people on fixed retirement incomes. Social Security has not given a COLA in five years while food, medicine, and now water are going up 5 to 10 percent. People on fixed retirement incomes should not be subject to the same rate increases as people who get annual pay increases.
7. At the end of every fiscal LADWP transfers about 15 to 20 million dollars back to the city of LA. The reasons for this transfer of funds is so LADWP does not show a profit. This money is also used to garner favors from LA City for LADWP projects. This practice must stop and the money used for infrastructure improvements.

Thank You for your considerations on this matter.

Douglas E. Feay-Retired Engineering Geologist California
Regional Water Quality Control Board

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD

LOS ANGELES DEPARTMENT OF WATER AND POWER
INDEPENDENCE WASTE WATER TREATMENT FACILITY**

**VIOLATION OF WASTE DISCHARGE REQUIREMENTS CONTAINED IN BOARD
ORDER NO. 6-95-64 FOR THE FEBRUARY 10, 2003 DISCHARGE OF SEWAGE TO
THE LOS ANGELES AQUEDUCT**

_____ Inyo County _____

The California Regional Water Quality Control Board, Lahontan Region (Regional Board), finds:

1. Discharger

The Los Angeles Department of Water and Power (LADWP) discharges treated domestic wastewater from the Independence Waste Treatment Facility (WTF). For the purposes of this Administrative Civil Liability Order (Order), the Los Angeles Department of Water and Power is considered the "Discharger".

2. Facility

Discharge from the Independence WTF is subject to Waste Discharge Requirements (WDRs) specified in Board Order No. 6-95-64, adopted June 8, 1995. Domestic wastewater is treated in lined oxidation ponds and then discharged to unlined percolation ponds. Discharge to the percolation ponds consists of undisinfected secondary treated sewage. The ponds are connected by a concrete pipe. The oxidation and percolation ponds are located less than 0.5 mile from the Los Angeles Aqueduct (LAA).

3. Facts

On or about February 10, 2003, the LADWP violated prohibitions and provisions contained in WDRs prescribed for the Independence WTF and caused a condition of pollution as defined by California Water Code (CWC) Section 13050. LADWP discharged undisinfected secondary-treated effluent to an unauthorized area, in violation of the WDRs for the Independence WTF as described further below and in Administrative Civil Liability Complaint No. R6V-2004-0011 issued May 5, 2004.

- a. On February 7, 2003, at approximately 5:00 PM, the operator for the Independence WTF opened the gate to begin discharge of undisinfected secondary-treated sewage effluent to

PROTEST THE LADWP WATER RATE INCREASE!

Why we oppose the five-year rate increase:

- According to the LADWP's own benchmarking study **and** a review by the ratepayer advocate **and** an independent study, LADWP salaries and benefits are higher than comparable utilities, higher than comparable jobs for L.A. City, and higher than comparable jobs across the nation, yet nothing is being done about it except calls for more studies—while LADWP plans a “cost-of-living” raise in 2016.
- The new water rate ordinance lifts the cap that limits the extra charges for “adjustment factors,” which raise your rates in-between the other rate increases. These extra charges will now be unlimited, and they can be increased over and over, without City Council approval.

To protest the new water rate ordinance, just write on a piece of paper (you can use the lower portion of this one):

Your **name** (or the name of the DWP customer)

Your **address** (the property address, not a P.O. Box or billing address)

The words, “**LADWP Water Rate Ordinance**”

The words, “**I protest**” or “**We protest**”

Mail or hand-deliver it to:

City Clerk

200 N. Spring Street, Room 395

Los Angeles, CA 90012

It must arrive **by the morning of February 17** to be counted. One protest per address will count. If half of all DWP customers file a valid protest, the rate hike will not be imposed. It must be on paper to be valid, no e-mail or calls will count, although you can certainly call your City Council representative and express your views. It might help.

LADWP Water Rate Ordinance

I PROTEST

CF-15-1543

PROTEST

RECEIVED
CITY CLERK'S OFFICE
2016 FEB 10 PM 3:06
BY _____
CITY CLERK
DEPUTY

PROTEST THE LADWP WATER RATE INCREASE!

Why we oppose the five-year rate increase:

- According to the LADWP's own benchmarking study **and** a review by the ratepayer advocate **and** an independent study, LADWP salaries and benefits are higher than comparable utilities, higher than comparable jobs for L.A. City, and higher than comparable jobs across the nation, yet nothing is being done about it except calls for more studies—while LADWP plans a “cost-of-living” raise in 2016.
- The new water rate ordinance lifts the cap that limits the extra charges for “adjustment factors,” which raise your rates in-between the other rate increases. These extra charges will now be unlimited, and they can be increased over and over, without City Council approval.

To protest the new water rate ordinance, just write on a piece of paper (you can use the lower portion of this one):

Your **name** (or the name of the DWP customer)

Your **address** (the property address, not a P.O. Box or billing address)

The words, “**LADWP Water Rate Ordinance**”

The words, “**I protest**” or “**We protest**”

Mail or hand-deliver it to:

City Clerk

200 N. Spring Street, Room 395

Los Angeles, CA 90012

It must arrive **by the morning of February 17** to be counted. One protest per address will count. If half of all DWP customers file a valid protest, the rate hike will not be imposed. It must be on paper to be valid, no e-mail or calls will count, although you can certainly call your City Council representative and express your views. It might help.

PROTEST LADWP Water Rate Ordinance

2016 FEB 24 PM 3:00
CITY CLERK'S OFFICE
BY CITY CLERK
DEPUTY

I, Gary Ingalls, customer of record at 7808 Kyle Street, Sunland, California 91060 do protest the proposed restructured water rate ordinance and increases of the LADWP water rates as described by Article XIII D, section 6 of the California Constitution.

I feel that these changes should not be imposed on the people that use LADWP water services because of poorly constructed policies of the LADWP. These problems should have been taken care of over the years past. and financed from company profits. Rates have always risen and those increases should be used to resolve these problems but they never are.

As for expanding water supplies there has been talk of building catch basins to collect rain water for over fifty years. FIFTY YEARS! And nothing has been done about it. Desalination plants have been successfully built and used in many places around the globe. But California says they are too expensive. Do you think they will be cheaper when they have to be built because there will be no alternatives left to get water? FOOLISH!

There are just too many arguments at hand and I also believe that even if the majority of people protest it will not matter because you'll just find other ways to screw the people out of their money so you won't lose any of your profits. So as much as I feel it does not matter,

I DO PROTEST!!

PROTEST

Re: 15345 Larkspur Street, Los Angeles, CA

Attention: Clerk of Council

Case: 429643

Violation: Storage of Commercial Vehicles in the RA zone

Date: September 30, 2011

I am writing this letter to protest the proposed lien of \$1,288.56 for the above mention violation. I did comply with removing commercial vehicle from my property on the requested date. I never received a bill with the amount requested to pay for parking the commercial vehicle in the property. I just had the car parked there one night. I never stored the vehicle for more than one night. I was unaware that I couldn't bring this type of vehicle in the property. I would like if it's at all possible to pay the code violation Inspection fee of 356.16. I am truly sorry for not reading the letter with care. I do see that it states the amount required to pay and the time allowed to complete the payment. I just thought if I removed the car it will take care of everything and there will be no monetary consequence. Please call me if you have any questions or if you need to contact me to explain further. My phone number is 818-665-5957.

Sincerely,

Napoleon Ortega
