

PROTEST THE LADWP WATER RATE INCREASE!

Why we oppose the five-year rate increase:

- According to the LADWP's own benchmarking study and a review by the ratepayer advocate and an independent study, LADWP salaries and benefits are higher than comparable utilities, higher than comparable jobs for L.A. City, and higher than comparable jobs across the nation, yet nothing is being done about it except calls for more studies—while LADWP plans a “cost-of-living” raise in 2016.
- The new water rate ordinance lifts the cap that limits the extra charges for “adjustment factors,” which raise your rates in-between the other rate increases. These extra charges will now be unlimited, and they can be increased over and over, without City Council approval.

* To protest the new water rate ordinance, just write on a piece of paper (you can use the lower portion of this one):

- ① Your name (or the name of the DWP customer)
- ② Your address (the property address, not a P.O. Box or billing address)
- ③ The words, “LADWP Water Rate Ordinance”
- ④ The words, “I protest” or “We protest”
- ⑤

Mail or hand-deliver it to:
City Clerk
200 N. Spring Street, Room 395
Los Angeles, CA 90012

Mail by Feb 17th

It must arrive by the morning of February 17 to be counted. One protest per address will count. If half of all DWP customers file a valid protest, the rate hike will not be imposed. It must be on paper to be valid, no e-mail or calls will count, although you can certainly call your City Council representative and express your views. It might help.

PROTEST

15-1573

Re: LADWP Water Rate Ordinance

To Whom It May Concern;

I am writing to protest the proposed water rate increases for the Department of Water and Power.

I would suggest the DWP look at their current management practices and identify ways to operate more efficiently, before they are given additional funds to waste!

They might start with their pay practices.

According to a recent report by the Los Angeles Times, the average total pay of Los Angeles Department of Water and Power employees in 2012, \$101,237, was more than 50% higher than other city employees! The Times also reported their salaries to be about 25% higher than employees at comparable public and private utilities!

Our neighborhood consists of many retired, and/or hard working people who can't afford to keep subsidizing DWP's failure to operate efficiently.

Lastly, our successful efforts to cut water usage and conserve should not be penalized with another rate increase!

Sincerely,

Karen Giles, DWP Customer
