Summary: The United Neighborhoods Neighborhood Council supports appointment of a Petroleum Administrator forthwith. Since 1958, the Administrative Code has prescribed duties that include: inter-agency coordination; review of permits, approvals, and legislation; and investigation of issues referred by any City agency or officer. However, despite repeated promises of strict controls in the Code and conditional use approvals for drill sites, these duties have not been performed for 25 years. Severe problems have been ignored, conditions not enforced, compliance not reviewed, and the City is not adequately prepared to fulfill routine and emergency duties. This danger to the City must be rectified.
