Impact Information

Date: 06/30/2019

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 16-0243

Agenda Date:

Item Number:

Summary: Whereas, the Coastal San Pedro Neighborhood Council recognizes that the State of California is ahead of schedule to achieve at least 33% of electrical power from zero emission sources by 2020 with the goal of 100% zero emission sources by 2045 and, that the Los Angeles Department of Water and Power is accomplishing the conversion to zero emission power sources at a rate significantly faster than the State. Whereas, natural gas remains a significantly large source of power for both the State and DWP and the production, storage, and transportation of natural gas releases methane in sufficient quantity to contribute significantly to greenhouse gas and climate change. Be it resolved, the Coastal San Pedro Neighborhood Council (CSPNC) requests the Department of Water and Power plan to achieve 100% zero emission electrical power conversion by the year 2035.
