

#4

COOL° LA

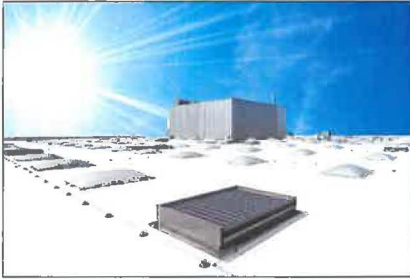

COOLING LA'S NEIGHBORHOODS

Date: 4-17-19
Submitted in PWCR Committee
Council File No: 16-0395-51
Item No.: 4
Deputy: BSS

COOL^oLA

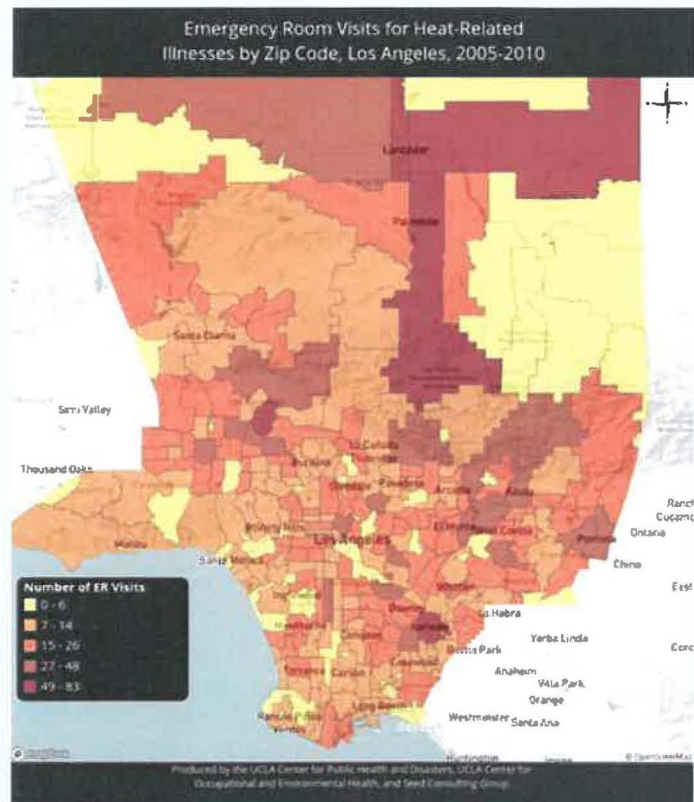

COOLING LA'S NEIGHBORHOODS

COOL PAVEMENT + COOL ROOFS + SHADE TREES
 = COOL and SAFE NEIGHBORHOODS

LOS ANGELES EXPERIENCES HEAT-RELATED ILLNESSES AND DEATHS

(One of the only cities with heat-related deaths in Winter)

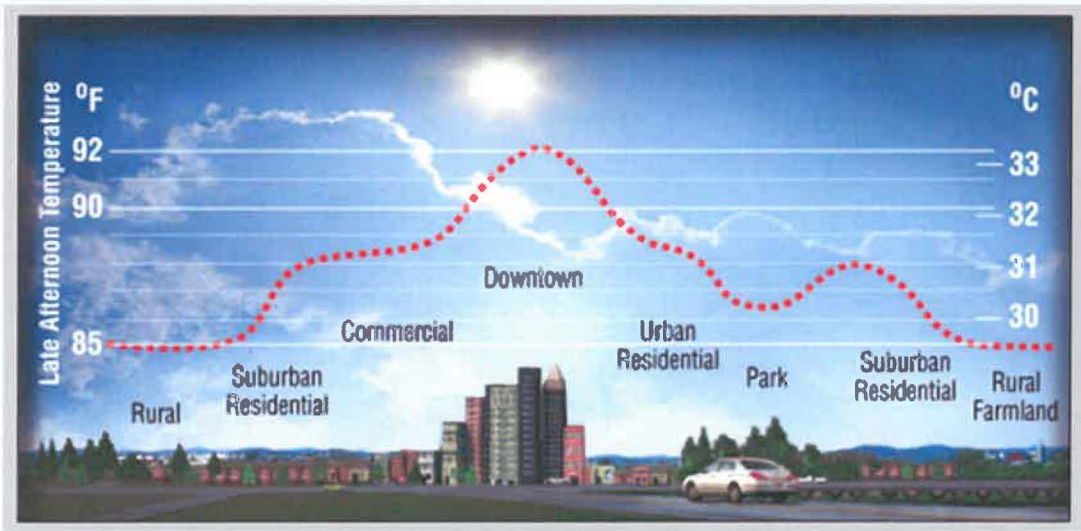

COOL^oLA

COOLING LA'S NEIGHBORHOODS

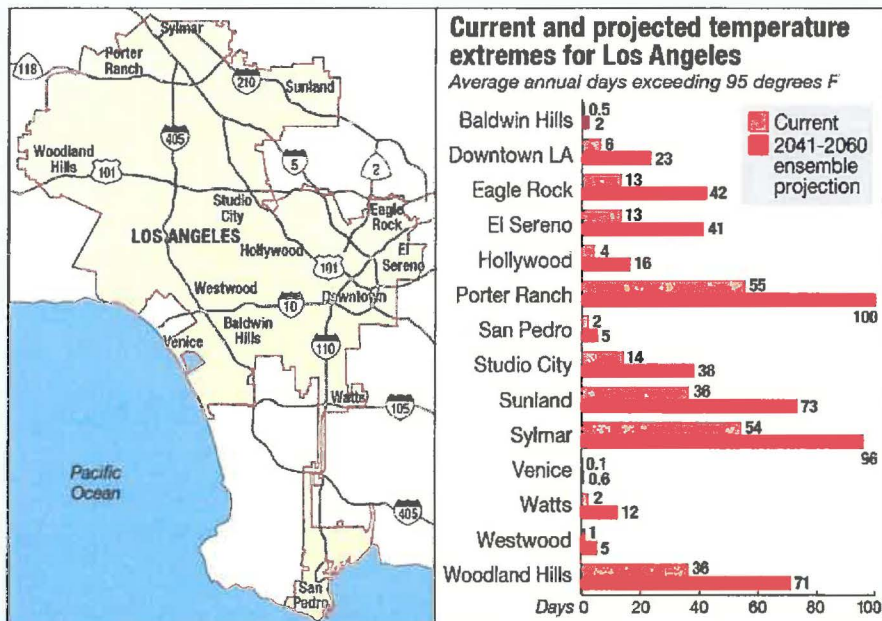

HEAT ISLAND EFFECT:

Cities are hotter than the surrounding countryside, because the built environment absorbs heat

and LA IS ONLY EXPECTED TO GET HOTTER!

Source: UCLA LARC study, 2012; chart based on the mean/average projected by the 18 climate models
