

Proposed Amendment to May 24, 2016 Motion by Councilman Buscaino

(Council File #16-0585, "California Department of Fish and Game/Coyote Sightings")

The following language shall be added to Councilman Buscaino's Motion as a second paragraph following the words, "I THEREFORE MOVE":

"In assessing whether improvements should be made in its current Coyote Management Program, the Department shall solicit opinions on its actual or likely effectiveness from a diverse group of experts in the field of urban coyote management, including but not limited to: Professor Emeritus Rex Baker, a specialist in wildlife/human conflict management at Cal State Polytechnic University; Robert M. Timm, former Director and Wildlife Specialist at the University of California's Hopland Research and Extension Center; and Niamh Quinn, Area Vertebrate Pest Advisor at the University of California's Cooperative Extension, South Coast Research and Extension Center, Irvine. The Department shall include in its report a list of all experts whom it has consulted, summaries of their respective comments, and statements by the Department responding to those comments."
