

FY 2016-17 Budget Report Back
Administrative Services Bureau
Response to Item Nos. R-60 and R-64

Item No. R-60 (Creating a new Police Service Representative position classification):

The Police Service Representative (PSR) classification is comprised primarily of three disciplines: Radio Telephone Operator (RTO), which is responsible for dispatching calls and coordinating with field units, Emergency Board Operator (EBO), which is responsible for answering incoming calls for service and the Complaint Board Operator, which handles services requests from field units and obtains follow-up information from citizens reporting non-emergency calls.

Understandably, extensive training is required in order to learn the complex duties a PSR is expected to perform. The current curriculum consists of 48 weeks of instruction. Conversely, the function of CBO is far less demanding than either the RTO or EBO positions. Analysis of training protocols/requirements would be needed in order to establish a dedicated CBO training regimen.

Additional Information:

There are currently 68 PSR vacancies within Communications Division. This number reflects the addition of 30 new PSRs who attended training sessions in July 2014 and March 2015. Unfortunately, CD remains understrength and is unable to maintain adequate staffing levels.

Summary:

- Creating a new PSR classification, tailored exclusively to EBO, would expedite the training process.
- Creating an EBO classification may in certain circumstances limit CD's ability to redeploy assets to address workload and deployment needs.
- CD is currently working with Personnel Division and Personnel Department staff to determine the feasibility of creating a new EBO only classification.

Item No. R-64 (Creating a metric for hold time on the non-emergency telephone lines):

Due to staffing shortages coupled with a call load that has increased over the past six years by 700,000 calls, CD has not achieved the National Emergency Number Association (NENA) goal of answering 90% of 9-1-1 calls within 10 seconds during the busiest hour.

It should be noted that NENA does not provide a metric for hold time for the non-emergency lines and does not mandate a standard for the non-emergency line. Communications Division developed an internal standard that can only be met when fully staffed. That standard is 80% of the non-emergency calls answered within 30 seconds. Non-emergency calls are defined as calls transferred from 9-1-1 (which are determined to be non-emergencies), calls transferred from other entities, and calls received directly from 1-877-ASK-LAPD. While CD strives to meet this internal goal the continuing staffing shortage has inhibited the division's ability to meet this self-imposed standard.

Summary:

- CD has created a metric for hold time for the non-emergency lines which is to answer 80% of non-emergency calls within 30 seconds.

> Dear Patricia,

> Pacific did in fact revert back to a 3/12 for A and C watch and left Watch B a 4/10. This was accepted via ERG with Commander Blake's concurrence some months back.

Pacific Division ranked 9th in the City for crisis calls for service in 2015 and ranks 7th YTD. Additionally, MEU engaged in a homeless outreach pilot on Venice Beach from June through October 2015, during which time 1600 contacts were made. Of those contacts, only five met the criteria to be placed on a hold and the vast majority of the persons contacted were service resistant.

In the final analysis, the Pacific numbers do not support the dedication of a SMART unit, to do so is inconsistent with the mission and with the MOA with DMH, as their Emergency Response Clinicians do not engage in homeless outreach, and there are already SB-82 funded DMH Homeless Outreach Teams and NGOs in that service area to effectively address the needs of homeless individuals in Venice.

The mission of the LAPD/Department of Mental Health (DMH) co-deployed SMART units is to respond to calls that involve persons who are suffering a mental health "crisis." The SMART is part of the DMH Emergency Outreach Bureau and its mission does not include homeless outreach. The DMH has dedicated homeless outreach teams that are funded by SB-82 and work directly out of the DMH service areas. They are not part of the Emergency Outreach Bureau. Additionally, there are several other non-governmental organizations (NGOs) and community groups that perform homeless outreach in the community.

The recent expansion of SMART (by LAPD and DMH) was in response to a significant increase in crisis calls for service (up 17%) throughout the City, only 20% of which involved a person who was homeless. The additional SMART units will be distributed across the City, as reflected in my earlier badge note, and there are no plans to "dedicate" a SMART unit to Pacific Division.

Fact Sheet

2016-17 Budget Report Back - R63

The Police Department reports that 338 sworn personnel perform Administrative, Clerical, Detention Officer, Police Service Representative, Technical and other civilian duties. 269 (80%) of the 338 sworn personnel spend 100% of their daily time performing civilian personnel duties while the remaining 69 (20%) of the 338 sworn personnel, on average, spend 40% of their time performing civilian duties. In total 338 sworn personnel perform job functions equivalent to 297 civilianized duties.

Of the 338 sworn personnel, 221 are on full duty status, 91 are on Light Duty status, three are on Injury On-Duty (off) status, and 23 are on Permanent Injury status. The Department currently has 88 civilian vacancies where the 221 full duty status sworn personnel are assigned and performing civilian duties. The remaining 133 of 221 full duty status sworn personnel performing civilian duties throughout the Department do not have equivalent civilian vacancies available due to Early Retirement Incentive Program (ERIP) and the elimination of formerly budgeted civilian positions.

Table: Prioritized List of Civilian Classification

Priority Level:	Assignment and Duties	Current Vacancy Level Where 221 Full Duty Officers perform Civilian Duties
1	Detention Officer	65
2	Police Service Representative	8
3	Technical/Other	5
4	Administrative	7
5	Clerical	3

FACT SHEET

LAPD SUBSTATION AT THE VILLAGE

Background

The Village opened on Friday, September 18, 2015. It is located at 6250 Topanga Canyon Boulevard. This is an open-air mall configuration with over 80 stores and 2,600 parking spaces. The goal of the open-air mall concept was to create an outdoor experience for community members to enjoy the weather, landscape, and events. The Public Safety Committee is seeking data on the cost benefit of placing an LAPD Substation at The Village.

Currently, the Westfield Topanga mall, located at 6600 Topanga Canyon Boulevard, has an LAPD Substation. This substation is located to the south side of the mall and approximately 1,000 feet from The Village. Unfortunately, the substation is in subpar condition. The substation is lacking resources, such as computers, printers, and a live-scan machine. Currently, staffing allows for only one foot beat to be assigned to both The Village and Westfield Topanga to handle all calls for service.

Conclusion

Business space at The Village is very limited. There are no additional business locations that are available to install a substation.

PUBLIC SAFETY COMMITTEE DEPLOYMENT-RELATED INQUIRIES

Prepared by
Field Deployment Unit

June 29, 2016

PURPOSE

The Field Deployment Unit (FDU) was requested to provide the following deployment-related information to the Public Safety Committee:

- Item R-66 Part 1 - Number of officers performing patrol functions versus specialized units;
- Item R-66 Part 2 - Historical analysis of percentage of sworn officers assigned to patrol over the past 30 years at five-year intervals; and,
- Item R-68 - Plan for restoring positions to Valley Traffic Division (VTD) in order to reduce hit and run and other traffic-related fatalities.

FINDINGS

Item R-66 Part 1

The FDU utilized the Deployment Management System (DMS) 3.0 to obtain Patrol versus Specialized deployment data for Deployment Period (DP) No. 6, 2016. The table below shows the number of officers assigned to Patrol/Traffic versus Specialized Units within Office of Operations (OO). See attached table titled, "Office of Operations Patrol Officers v Specialized Officers," for details.

DP No. 6 – Number of Personnel of Officer Rank in OO – Patrol/Traffic v Specialized

Patrol/Traffic	3453	70%
Specialized	1457	30%
Total	4910	100%

Patrol/Traffic – Category includes: Patrol response cars, (A-car, X-car, XL-car, Non-supervisory L-car), Traffic response units, Desk, Entertainment Detail, Harbor Gateway Z-car, Kit Room, LA Live, Footbeat, Beach Detail, STORM, and Z-car (such as a patrol watch transient car).

Specialized – Category includes: Administrative, Bikes, CCU, CLEAR, Community Relations, COMPSTAT, Court Liaison, Crime Intelligence Unit, Detectives, FBI Task Force, Gang Auditor, Gang Detectives, GED, HACLA, NED, PCU, PED, RESET, Safer Cities Initiative, SPU, Station Security, UPTF, VCTF, and Vice.

Item R-66 Part 2

Because deployment data tracked by the current version of DMS only goes back to 2013, this system could not be utilized to address the Public Safety Committee’s historical inquiry. Initially, the goal was to obtain Patrol and Specialized deployment data from 1985 to 2015, average the data in five-year intervals, and conduct an analysis to identify deployment trends.

However, after querying FDU’s historical records and inquiring with other entities within the Los Angeles Police Department (Department), it was determined that deployment tracking was limited for a large part of the past 30 years, compared to the current DMS 3.0 system. The Department has historically tracked officer deployment by use of the Table of Organization and Deployment (TOD) report, maintained by Personnel Division. The limitation of this report is that it only provides the total number of personnel assigned to an Area/Division and does not account for the actual assignment.

Based on these limitations, FDU conducted an analysis of the TOD available in the FDU database, with the earliest reports going back to 2002. An analysis from DP No. 6 of 2002, 2005, 2010, and 2015 was conducted to compare the number of personnel of the Officer rank assigned to a Patrol Division relative to the Department as a whole, as can be seen in the table below. See attached tables titled, “Office of Operations (Year) Officer Deployment,” for details.

DP No. 6 – Personnel of Officer Rank Assigned to Patrol Division

Year	Officers Deployed to Patrol Division	Total Sworn Officers	% of Officers in Patrol
2002	3769	5919	64%
2005	4155	6181	67%
2010	4532	6580	69%
2015	4467	6734	66%
Average	4231	6354	67%

Item R-68

To identify any deployment trends of officers assigned to Valley Traffic Division (VTD), the FDU conducted an analysis of the TOD reports going back five years to 2011. The FDU obtained VTD's deployment data for each DP starting from DP 1, 2011, to DP 6, 2016, for the Officer rank. The table on the following page shows the average number of officers authorized and deployed to VTD for the five year period. See attached tables titled, “Office of Operations Valley Traffic Division Officer Deployment – DP 1, 2011 through DP 6, 2016” for details.

Average Number of Officers Authorized and Deployed to VTD

Year	Average Number of Officers Authorized (Adj)	Average Number of Officers Deployed	Plus/Minus
2011	195.5	193.7	-1.8
2012	196.1	181.0	-15.1
2013	195.7	174.9	-20.8
2014	195.2	180.0	-15.2
2015	195.8	187.2	-8.6
2016	193.5	188.0	-5.5
Average	195.3	184.1	-11.2

As can be seen in the table above, VTD average deployment during the last five years has ranged from a high of 193.7 (1.8 under authorized) officers to a low of 174.9 officers (20.8 under authorized). Deployment for 2016 is the second highest in the last five years at 188.0 (5.5 under authorized).

CONCLUSION

The FDU's analysis indicates patrol deployment has increased the last decade and a half. Additionally, VTD deployment has also remained relatively steady the last five years, with current levels being the second highest during that time period.

FACT SHEET
DETECTIVE BUREAU PROJECT 16-124
REPORT TO PUBLIC SAFETY COMMITTEE
REQUIRED RESOURCES FOR GUN UNIT RELATIVE TO FY 2016-2017 BUDGET
GANG AND NARCOTICS DIVISION

PURPOSE

This fact-sheet was conducted in accordance with Detective Bureau Project No. 16-124 directed by the Office of Special Operations regarding budgetary considerations relative to Gang and Narcotics Division (GND), Gun Unit. Detective Bernard Caraveo, GND-Gun Unit completed the report.

INSPECTION

City of Los Angeles Fiscal Year Budget Item R-67 instructed the Police Department to report "any resource required to provide a robust Gun Unit that is able to do all (ATF) Tracing and investigations for problem gun dealers."

A review of the Gun Unit's personnel staffing as well as current and anticipated investigative responsibilities was conducted since the inception of the Unit as an investigative entity in 2003.

FINDINGS

The Gun Unit was strictly an administrative unit until 2003 when staffing was increased to include gun trafficking investigations and Prohibited Persons investigations. Gun Unit areas of investigative and administrative responsibilities have steadily increased while staffing levels have declined.

Unit staffing levels peaked in 2007 where (20) sworn and (2) civilians were assigned including (6) sworn personnel within the Unit cross-deputized as ATF-Task Force Officers (TFO).

Current staffing levels consist of (15) sworn and (1) civilian including (3) sworn personnel cross deputized as TFO's. Of the three TFO's, (1) is assigned as a Point of Contact (POC) for all Tracing needs and (2) for field enforcement.

In addition to self-initiated investigations, the above listed duties and Citywide divisional support, the Gun Unit is also specifically assigned to:

- Inspections and enforcement of all Federally Licensed Firearms Dealers (FFL's) within the City.
- Processing and oversight of all Carry Concealed Weapons (CCW) applicants and permit holders.

FACT SHEET
DETECTIVE BUREAU PROJECT 16-124
REPORT TO PUBLIC SAFETY COMMITTEE
REQUIRED RESOURCES FOR GUN UNIT RELATIVE TO FY 2016-2017 BUDGET
GANG AND NARCOTICS DIVISION

- Maintenance, oversight and enforcement of the Armed Prohibited Persons System (APPS) which identifies prohibited persons who are still listed as firearms owners in the Automated Firearms System (AFS).
- Maintenance and investigations of Ammunition Logs which can identify prohibited persons who purchase ammunition. Ammunition Logs are generated at an average rate of 3600 per month. Prior analysis along with a Rand study revealed that an average of 10-11% of purchasers are prohibited possessors and well beyond the current scope of personnel to investigate.
- Provide firearms expertise to field officers and provide expert court testimony.
- Conduct analysis of pending City, State and Federal firearms legislation.
- Conduct surveillance and write and execute search warrants.
- Conduct Dealer Record of sale (DROS) denial investigations for persons who falsely claim they are eligible to purchase a firearm but are prohibited.
- Destruct List: Conduct AFS monthly checks for every firearm in the City that has been requested to be destroyed by an investigating officer to ensure it is not lost or stolen or otherwise eligible to be returned to a legitimate owner.

At peak staffing, neither APPS nor Ammunition Logs existed and CCW applications since 2007 have risen over 250% due to recent court decisions.
