What if you could go back in time and reverse a major error? Your opportunity may come this Friday.

If you do not believe any of the objections to the **Martin Town Center** warrant a reevaluation, I only ask you to consider that Santa Monica shut down a similar proposal last year just to the West at the Bergamot Expo Line stop. (You can read about it here)

The City of Santa Monica, and a plethora of knowledgeable residents, must have had *some valid reasons* to be concerned about their "transit-oriented" project and its impacts on the adjacent freeway access point.

Please make sure we cover our bases before approving an irreversible impact on a vital traffic corridor.

Respectfully,

**Subject:** Case Number: ENV-2012-3063-EIR - Martin Cadillac project

I am a registered voter and have been a resident of West Los Angeles for 11 years. I am writing to voice my opposition to the proposed Martin Expo project as it now stands.

You need to scale down the project, there are far too many new out of scale projects in this neighborhood, don't let greedy developers ruin our neighborhood they don't live here they don't care about the impact these massive developments have on our day to day life:

- we don't want the office space component.
- No permit for live entertainment.
- A reduction in retail square footage.

Don't you think that adding more than 500 apartments with the impact this will have in terms of traffic, noise and light pollution, is enough! Our local infrastructure cannot support this project.

Thank you,

Cyril Jay-Rayon
