Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner's groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

I urge a delay in the approval of the Martin Cadillac Project . This portion of Bundy and Olympic already has unbearable traffic much of the day, and this project will dramatically gridlock with a minimum of 7,000 additional car trips daily (and probably much more).

In addition, the provisions for affordable housing represent a miniscule contribution to civic improvement for a project that will generate many tens of millions of dollars in profit the developers.

I support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more parking space for Expo Line riders.

The City of Santa Monica rejected a similar proposal last year, understanding that it would undo long term strategic plans to manage traffic, density, and quality of life for Westside residents. Please review and revise this project to make sure it will be a positive development for West Los Angeles.

Sincerely,

Michael E. Mahler

You should all be voted or kicked out of office for allowing this project to go forward. Why are you allowing this city to be destroyed?? WHY, for what reason?? How about all of you drive in that area every day around 4-6 and lets see how much you love it. The traffic in Los Angeles is notorious throughout the country. ENOUGH. 7000 cars or 3500 more cars is disgusting. SHAME ON ALL OF YOU!!!!!!

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner%u2019s groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

I would like for each Council person to drive on Bundy after 3:00 daily until 7:00. It takes longer to get to the freeway than it does traveling on the freeway to get to desired destination. Try Olympic at the same time and you will see a disaster. The train does help but first we must drive to the train and park. If we don't drive there they will need UBER to take us to our destination if it is other than Pico and Bundy. This is expensive.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner's groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner%u2019s groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

The greater Los Angeles area offers huge scope for the jobs and opportunities developers can provide. The problem is that so many developers want to cram into areas of the Westside that are developed beyond what is reasonable in terms of the impact of traffic congestion on the quality of daily life.

A more forward looking and thoughtful approach is to consider how development can invest in and improve the lives and neighborhoods of more of our citizens. AND to do this both by drawing in new residents and by not displacing those who have made those areas their homes.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow and quality of life for the area.

I support the solutions suggested by various homeowners groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

I hope this will convince you that, from personal experience, I have something meaningful to add concerning the proposed Martin Cadillac project.

I am a 73 year old retired lawyer who has lived in Los Angeles for 69 of those years. For 48 years, I have lived in West Los Angeles, and I have owned my home, at 161 S. Woodburn Drive, Los Angeles 90049, for 30 of those 48 years. For 30+ years I commuted from the west side to downtown Los Angeles, where I practiced law as partner of a major Los Angeles-based law firm, using the 405 and 10 freeways almost daily and, given the work load of lawyers, at all hours.

Given this personal background and perspective, I hope you will consider what I have to say about the Martin Town Center project.

Traffic is the number 1 problem in Los Angeles, at least in West Los Angeles. I have lived with this traffic in West Los Angeles for 48 years, including commuting to downtown Los Angeles and back when I practiced law. Even though retired, I drive virtually every day I am in Los Angeles.

Freeways are like walls to traffic which needs to pass from one side of the freeway to the other. There are openings in the walls, of course -- we call them underpasses and overpasses. But they are very few in relation to traffic and can be very crowded. In addition, as we all know, the San Diego and Santa Monica Freeways can be virtual parking lots.

Increases in density -- whether by multi-unit housing replacing lower occupancy buildings or single family residences or office buildings replacing smaller business occupancy buildings (or residences) -- invariably contribute to traffic congestion.

Palliatives, such as reverse lanes, widening streets, having more children bused to schools, and on and on, do very little to combat the increases in residential and business density. The fixed rail system, despite carrying a

significant number of people at some hours, has not been effective to reduce traffic, which has continued to worsen. The thought that those who live in a mixed use project will not commute by car is, frankly, fantasy. They may commute somewhat less than they otherwise would, but not a lot less -- we are a mobile society.

With all due respect, there really is a bottom line here. It follows.

The impact of increases in density on the quality of life those of us who live in West Los Angeles, as well as those who commute to and from West Los Angeles, is dramatic, highly adverse and worsening. Really, that needs emphasis -- **the impact of increases in density on the quality of life of those of us who live in or commute to and from West Los Angeles is dramatic, highly adverse and worsening!**

What is the other side? Profits for property owners and developers, construction jobs for those who might not otherwise have them (for the period of construction), and increases in tax revenues for the government. Just a word on jobs -- not permitting massive projects does not mean the construction jobs that would have existed on those projects will not exist elsewhere -- if there is a need for what the project provides, those seeking profit will seek to fill that need, just in a different way and different area and the construction jobs will be there.

What are our elected representatives and government officials supposed to do in situations like this? *With all due respect, they are supposed to do what enhances the quality of life of their constituents or, if that is not possible, at least do that which does not adversely affect the quality of life of their constituents.*

I know others say wait, make the density less, etc. I say the Martin Cadillac project -- both alone and combined with others being worked on or in the pipeline -- will greatly and adversely impact the already diminished by awful traffic quality of life of those who live on the West Side. The project should not be permitted -- to pull a word from my days of military service -- full stop.

Thank you for your consideration of this email.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you. Barbara hechtman 119 South Westgate Avenue Los Angeles 90049

My family and I are completely opposed to this disastrous development and will target any city officials who support it for defeat in future elections. To even consider adding this monstrous development to what is already a tangle of traffic and development in West LA is insane!

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space

and the inclusion of more space for Expo Line riders.

This development would dramatically impact the many commuters who must access the 10 freeway daily in addition to the thousands of local residents who would be horribly impacted trying to achieve basic tasks such as picking up children from school or accessing local services -grocery stores, parks..physicians, hospitals.....-as well as hampering city bus services and school busses trying to get children home at decent hours.

Traffic at the intersection of Bundy and Olympic is already one of the most congested on all of the Westside from 3-7 pm daily. It is nearly criminal for the City to prioritize the desires of giant developers to maximize profit -developers who are no doubt not local residents -over the smooth functioning of city life in that region.

PLEASE protect LA city residents right to a decent quality of life by genuinely considering the dire consequences to the daily life of locals and commuters that this mini city/building project will have!!!!

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

Dear Councilmember Bonin,

Brentwood Hills Homeowners Association asks you to please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

Brentwood Hills Homeowners Association supports the concerns and solutions suggested by various homeowner's groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

We ask you to please postpone the City Council hearing tomorrow so the matter can be fully heard before PLUM.

We think putting a project of this magnitude right at the critical Olympic and Bundy intersection will make West LA even more unlivable from a traffic perspective, without encouraging mass transit or addressing the affordable housing problem in any meaningful way. The project needs to be re-thought and scaled back.

Thank you.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner%u2019s groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

As a west-side homeowner who travels to the 10 freeway every day to go to south Los Angeles and downtown areas, I can attest to the choking traffic that already exists in this area.

We support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take the time to carefully consider if this is the right thing for west Los Angeles.

Thank you.

Dear Representatives,

As a West Los Angeles resident and member of a church in Councilman Bonin's district, I respectfully request that you delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow. I commute through this already congested area every day to take my daughter to school and to carry out our every day family business.

I support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for West Los Angeles.

Thank you.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow and volume in an already congested area.

I support the solutions suggested by various homeowners' groups, including a reduction in office space and restaurant space and the inclusion of many more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year. Please consider carefully all the implications of this project and whether it is the right thing for West Los Angeles.

Thank you.

We support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you,

Bunds needs a subway to the train station starting at the parking lot o San Vicente market and going to the new train station. Once South side from Santa Monica Airport to the train station. When this is done Build it. But not until you have a subway in place

Thank you.

I don't really think this is an abominable decision and believe that the city has acted in an irresponsible way. I think the amount of congestion on our westside streets and intersections have increased exponentially in the past few years because of this type of wrong decisions.

i

Thank you for reconsidering this disastrous move.

I live in Brentwood and deal with the hellish traffic here every day.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow, which is already a nightmare.

I support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

Sincerely,

Haya Handel

Before any approval of the Martin Cadillac Project, please fully consider the dramatic and irreversible impacts this project will have on the nearly gridlocked current traffic. Please consider solutions suggested by various homeowner groups. The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please make sure this is the right thing for west Los Angeles. Thank you.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow. I am a resident in the Brentwood area and the current impact of traffic during rush hours makes it impossible to frequent local businesses during peak hours. This kind of massive development will make our streets unbearable for all.

I support the solutions suggested by various homeowner's groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders. Riding the Expo line is being encouraged & will reduce congestion in the area. At the present time there is insufficient parking for all who want to support and ride the line; consequently, people have continued to take their cars. During commuting hours the line of cars waiting to cross/turn on Olympic & Pico Blvds is substantial and takes many lights to accomplish. If the Project is approved as currently written, the existing difficult traffic flow will be severely, negatively impacted.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for West Los Angeles.

Thank you.

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow.

I support the solutions suggested by various homeowner%u2019s groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please take a beat to make sure this is the right thing for west Los Angeles.

Thank you.

David Zucker

Thank you.

Linda Miller. Brentwood resident in traffic often at Bundy and Olympic! This will cause absolute gridlock. Train nearby won't make any difference!

Please delay approval of the Martin Cadillac Project and fully consider the dramatic and irreversible impacts this project will have on traffic flow. Gridlock around Santa Monica Boulevard and Bundy Drive will back up for miles,

significantly impacting Brentwood as well as other adjoining areas, both directly and indirectly as drivers try to find routes around the gridlock.

i support the solutions suggested by various homeowner groups, including a reduction in office space, restaurant space and the inclusion of more space for Expo Line riders.

The citizens of Santa Monica could not be completely wrong when they rejected a similar proposal last year, so please make sure this is the right thing for West Los Angeles.

Thank you.
