## Bob Hope Estate

---

Sharon,

I am sorry I am unable to attend today's meeting regarding the future of the Bob Hope Estate.

I have lived in Toluca Lake for over 45 years. Every Halloween we went to Bob Hope's house for the festivities. Mr. or Mrs. Hope would pass out silver dollars, greet the kids, and wish everyone a Happy Halloween.

The Nativity scene was also an annual staple, which would brighten up the holidays for numerous neighbors, and friends year after year.

Mr. Hope was an World renown icon, a humanitarian, and my neighbor. His home is unique to Toluca Lake, it is a part of our history, much like the nearby Bob's Big Boy, Mr. Hope's home is one of the last vestiges of our local history which is being torn down on a seemingly daily basis.

No home (or homes) can replace this classic estate. Please consider including the Bob and Dolores Hope Estate, at 10350 West Moorpark Street (in Toluca Lake), in the City's list of Historic-Cultural Monuments.

Thank you for your time and consideration,

Cameron Wardlaw

The Bob Hope Estate has historical and cultural significance to the City of Los Angeles and Toluca Lake. Measures should be put in place to preserve this famous landmark and prevent more "track" or cookie cutter houses from being constructed which devalues and undermines the integrity of our Toluca Lake Neighborhood and Community.

I support inclusion of a substantial portion of the Bob and Dolores Hope Estate, in the City's list of Historic-Cultural Monuments and if subdivided consider the past city recommendations for downsizing and designate a portion to serve as a public park honoring Bob and Dolores Hope.

Bob Wexler

Hello,

As a resident of Toluca Lake for the past 50 years I've seen our little hamlet grow and change some for the better and some for the worse.

My primary issue of the land use is the small corner lot directly across from the large lot. I believe this is owned by Bob's Estate as well.

The developers crammed 2 homes on this lot (no back yards). We all are afraid what developers would do with those over 5 acres that constitute

the property in question.

I don't see stopping Linda Hope from doing what she deems best as long as she is cognizant to the neighborhood that Bob and Delores loved so much.

They certainly wouldn't like to see what has been done to the lot across from their home.

Thanks so much!
