Dear Ms Dickinson, As an LA resident for 25 years I, and so many others, have been terribly dismayed by the rampant construction/development that is destroying the city's quality of life. Now it comes to my attention that these greedy pig developers may actually be using a new conniving strategy to bypass any limits on their greed. there is a supposed development appeal on a property that supposedly exists at 11600 Barrington but is actually a property on Dunston Way...I beg you to take heed of so many Brentwood area residents desires and not let this corrupt project go forward..as it is, there is apparently constant simultaneous new projects slated for Barrington Ave that will geometrically compound traffic, polution and all quality of life issues in the area...this frenzy of construction is unsustainable...Please Stop It!
