Council File No: 16-1357
Comments for Public Posting: Personnel and Animal Welfare Committee and Los Angeles City Council Members, I oppose the draft proposal (file number 16-1357) for the overregulation of animal exhibitions as a responsible animal educator. Please work with the affected stakeholders and qualified animal keepers to resolve the issues with this proposal. Currently, the language is rife with unintended consequences and lacking foresight. Please allow the people who work with these animals to assist with any ordinance. Their expertise and knowledge should not be dismissed as they are the people who actually understand these animals and their needs. Thank you for your time and have a good day. Sincerely, Regina Queiroz
