Dear member of the Los Angeles city government,

I would like to thank you for proposing and (in advance) for passing this amendment to the ordinance that prohibits exhibition of exotic animals. Education of the public regarding our animal companions on this planet is vital. Both myself and my son have been so positively impacted by educational outreach, particularly that of the Southwestern Herpetologist Society.

Please make sure that education and understanding of the animal world can continue.

Thank you.

Alyssa Ganezer
