Messrs Lid and Greif:

Here is some additional information relative to our organization including our specific request for modification of the proposed ordinance to avoid damage to our educational outreach offerings. In the letter on the front two pages of a submission we are asking for an exemption for our accredited institutions that so many other jurisdictions have recently allowed on the same basis as other national zoological accrediting institutions. Our members are not creating the problems which have been publicly attributed to the need for this legislation.

Please let us know if you have any questions before, during or after a hearing on this ordinance is set.

Respectfully,
Alan Smith
