To whom it may concern ,

I am Writing in regards to the Animal Ban item number #16-1357 the Stop of Exotic & Wild animals Performing in Los Angeles California

I know it's in everyone best interest to save these magnificent species but let's learn from what happened in Mexico when they changed the law to restrict animals from state to state

In Mexico the Government shut down all Circuses & traveling shows & put all animals in Sanctuaries or got sold to illegal black trade & a year later only 20% of the animals are still alive 80% did Not survive the transit or were not able to adapt to their new surroundings & couldn't afford to maintain their diets & vet care.

I also want to point out what a Circus or performing animals brings to your community, animals hay /sawdust feed fruits & vegetables are all purchased locally at every city we stop in ! We also Bring work locally by having ticket vendors ushers food vendors & local stagehands work We also Support your Shriner's & their Cause & they do wonderful things for the children hospitals & elephants are helping kids in their cancer.

As you can see it's not just Circuses it will hurt it will also be Rodeos ,Dog show K-9 aquariums , and any service animal , even down to your hotdog & ice cream & they all will be Next it's all in the same path of eliminating all animals out of our lives

It's in same agenda.

This Ban will cause Great harm to people who work hard with working with animals of all species

By Banning Animals from community you are only helping animals fall closer to an Extinction list do to lack of Education & interest,

Please help solve the problem in human animal bond before its all gone

Our animals have the best care & we have routine inspections and veterinary care at all times, any private owner have a license to own and is inspected randomly by the USDA & they show up at any certain location at any time unannounced, we can't even travel without sending our route to the USDA

Our animals are born here in USA & are born in humane care our animals would never survive the wild due to loss of habitat drought ,disease lack of food & poachers & because they have been with us for many generations these animals have been domesticated by generations now.

New laws makes many species die out ! & we cannot let this happen!

I encourage everyone to visit performing animals in your area before you completely close the door on them

I Strongly Oppose agenda item #16-1357

So instead of Passing a Ban to close your eyes of the bigger issue you could help Support our efforts in helping save any species Please Help Save Working Animals in Every Industry

Please accept this letter into the Public Record to be included in any hearing studies and/or reports pertaining to this issue.

Thank you for your time.

Sincerely, Christine Barrello
