To whom it may concern,

Regarding agenda item 16-1357 please make bonafide conservation / animal groups exempt from law, I work with third grade field trips at the Santa Susana Pass State Historic Park and this would mean that we could no longer share our animals and educate 3rd grade students on caring for and respecting our wildlife. Our station is one of the children's favorite. Please consider how this will impact education our communities on the local wildlife.

Peacefully Yours,
Diana Sprout
