**Council File No:** 16-1411-S1

**Comments for Public Posting:** To PLUM, Please consider rescheduling taking a vote on this item until a further date. You did not give appropriate time to let community know of the meeting time for PLUM meeting on June 25th. In addition, I stand with the community residents that are against this development.

## Communication from Public

**Date Submitted:** 06/19/2019 04:57 PM

**Council File No:** 16-1411-S1

**Comments for Public Posting:** I oppose this project. I also do not think that the planning department has given proper notice to the community residents of this item being put on the agenda for the PLUM meeting. The community needs more open spaces! Bring back the farm.

**Date Submitted:** 06/25/2019 12:23 PM

**Council File No:** 16-1411-S1

**Comments for Public Posting:** Dear PLUM Committee, My name is Sarah Stolz and I am submitting a comment on agenda ITEM NO. (14) 16-1411-S1. Residents of South Central Los Angeles are disproportionately burdened by environmental impacts associated with industrial developments. The former site of the South Central Farm is the largest undeveloped, industrially zoned parcel in the city (14 acres). For decades, it has been sought after by developers, proposing projects that would further contaminate air quality and threaten residents health. The community has successfully fought these projects, from a trash incinerator (LANCER SITE) in the 1980's, to industrial warehouses for Forever 21 in the early 2000's, to the current fight to stop PIMA Alameda Partners LLC proposed project. Since 2012 PIMA Alameda Partners LLC have been trying to develop four industrial warehouses on the historic South Central Farm site. Our community has a right to breathe clean air. Clean air is fundamental for a healthy life. Yet our community is already burdened by pollution from the City of Vernon, the Alameda corridor and the heavy diesel truck traffic from Alameda ST. Unfortunately we can't divide pollution into districts so I urge to stand with our community and denied case file 16-1411-S1. I strongly feel that the Department of City Planning of Los Angeles did not meet its 15 day notice requirement. I also researched the case file on their website and I was not able to locate a hearing date or time. As a result am requesting the hearing now scheduled for June 25, 2019 be postponed until adequate outreach is done and all necessary materials are made available. I believe the approval of this project would significantly add to the cumulative impacts on freeway facilities in an already overburdened system. Please do not approve the recirculated draft EIR for this case. PIMA Alameda Partners LLC Environment Impact Report fails to fully address how this project will impact CD9 residents. A new traffic study should be done. Sincerely, Sarah Stolz

**Name:** Katherine McNenny

**Date Submitted:** 07/01/2019 08:33 PM

**Council File No:** 16-1411-S1

**Comments for Public Posting:** My name is Katherine McNenny. I am emailing you regarding case file: 16-1411-S1. All 4 Neighborhood Councils, Central Alameda, Zapata King, South Central, and CANN DU submitted a community impact statement opposing PIMA Alameda Partners LLC. Combined they represent over 200,000 South Central Los Angeles residents! Our Neighborhood Councils support our efforts to bring back the South-Central Farm. Honor the voice of over 200,000 South Central Los Angeles residents. Each Neighborhood Council in CD 9 represents 50 thousand South Central Los Angeles residents. Yes to Clean Air, Yes to Food Justice, Yes to Green Jobs, Yes to Park Equity and Yes to Food Entrepreneurship. Listen to the people. It sure is a lot of them that want a garden here, not another warehouse. Sincerely Katherine McNenny Co-founder of Industrial District Green Member of the Skid Row Neighborhood Council-Formation Committee
