

Councilmember Paul Koretz  
Council District 5  
Los Angeles City Hall  
200 N. Spring Street Suite 440  
Los Angeles, CA 90012

September 14, 2017

Dear Councilmember Koretz –

With this letter, we are forwarding the names of over 385 Cheviot Hills residents, representing over 280 individual addresses, in favor of keeping our community under the protections of the R1-1/BMO zoning category. These supporters have expressed their preference by personally signing hand circulated petitions, signing an online Change.org petition, and/or submitting letters and comments to your office and the Administrative record for CFMS 16-1470, CFMS 16-1460 and CFMS 14-0565. In contrast, there are fewer than one dozen comments in the public record in support of any other zoning alternative for Cheviot Hills.

We continue to be perplexed that a motion to remove Cheviot Hills from R1-1/BMO remains on the docket for the City Council when nothing in the public record supports the motion. As this process has unfolded, your office has gone on record repeatedly stating that only “tremendous” or “overwhelming” support would cause you to consider recommending that Cheviot Hills be given a variation different from R1-1/BMO:

- A December 5 email from CD 5 to a stakeholder stated “Cheviot can *in theory* get any of the options, though we would really *like to see a strong consensus*.” [emphasis added]
- At the December 8, 2016, Planning Commission meeting, the CD5 representative stated that, “unless shown otherwise,” neighborhoods in the ICO would be under R1-1/BMO. [Audio recording at 32:05.]
- Also at the December 8, 2016, Planning Commission meeting, the CD5 representative stated “our philosophy (is) that unless we see something overwhelming one way or the other we will ask for BMO.” [Audio recording at 35:22.] In keeping with this commitment, he requested three (3) separate times that Cheviot Hills be under R1-1/BMO. [Audio recording at 34:10, 35, and 39:05.]
- In February 2017, your office sent an email to Robert Silverman stating that “every council office and every neighborhood demanded tremendous support to get a variation zone.”

The record from the December 8, 2016, Planning Commission meeting also reflects Commissioners Dana Perlman and Samantha Milman, as well as Planning Department staff, confirming that they rely on Council offices “to be the eyes and ears” of their communities and that they would “honor [Council office] requests”. [Audio recording at 40:21.]

Despite their stated reliance on CD5 (which had requested R1-1/BMO), the Planning Commission then took up “some late-breaking requests” to move Cheviot Hills to R1VNew. [Audio recording at 38:22.] Based on this unattributed request, which was not on the agenda and for which no notice was provided, the Planning Commission then rejected CD5’s recommendation and moved Cheviot Hills forward under R1VNew. This action was procedurally improper and violated the due process rights of our community.

Nothing in the public record reflects “tremendous” or “overwhelming” support for removing Cheviot Hills from R1-1/BMO, as CD5 committed would be necessary before it recommended any variation other than R1-1/BMO. To the contrary, the public record reflects significantly more support for R1-1/BMO than R1VNew.

For the past 6 months, while Cheviot Hills has been under R1-1/BMO, 33 single family homes have been sold – more than were sold during this same time period in 2016 (when 22 were sold) and 2015 (when 19 were sold). [This data was taken from both Zillow and the Los Angeles County Assessor’s database.] There are more than 10 active or pending building permits under the R1-1/BMO and more than 10 additional still active or pending under the ICO. Building permits continue apace, and sales prices continue to rise and do not appear to have suffered for either newly built homes nor those scheduled for major reconstruction.

In short, nothing in the public record supports the pending motion to remove Cheviot Hills from R1-1/BMO. We respectfully request that CD5 withdraw the motion. Unless and until there is overwhelming, publicly demonstrated, support for a different designation, Cheviot Hills should remain under R1-1/BMO to be consistent with the evidence in the public record and CD5’s longstanding work and leadership on this issue.

Sincerely,

Celine Burke

City Clerk

The attached spreadsheet is an accurate consolidation of over 50 pages of hand collected signatures, an online petition and collected comments put into the Administrative file of Council Files 14-0656, 16-1460 and 16-1470. Duplications have been eliminated, and names have been alphabetically listed to ease identification. In creating one spreadsheet rather than submitting more than 50 pages of photocopies, it is our intention to reduce waste and staff time. However, originals, or photo copies of the originals are available immediately on request.

All names and addresses have been verified as being true and correct to the best of our knowledge. All hand collected signatures were personally contacted at their home addresses which lie within the official Cheviot Hills Homeowners Association boundaries and/or the boundaries covered in the motion still pending under 16-1470.

.
