Dear Planning and Land Use Management Committee,

I am writing to you to express my support for The Alexan Project, as approved by the Director of Planning on July 28, 2016. I am strongly in favor of the latest iteration of the project, which would create 305 much-needed apartment units in the urban core of Los Angeles. In order to make progress towards alleviating the severe housing shortage we're experiencing, we need greater density in the limited pockets of the city that are suitable for it. The transformation of Downtown has been tremendous, and this project would be a great step towards making the Historic Core neighborhood more livable/walkable. I hope you agree and deny the appeal at the PLUM Committee meeting on March 28, 2016.

Sincerely,  
Leonora Yetter

Dear Planning and Land Use Management Committee,

Los Angeles needs Downtown LA to prosper and to absorb the bulk of the growth we need as a region. We need to optimize the land-use of every Downtown LA parcel to ensure that we're building the most complete and healthy community that we can.

I am writing to you to express my support for The Alexan Project, as approved by the Director of Planning on July 28, 2016. I am strongly in favor of the latest iteration of the project, which would create 305 much-needed apartment units in the urban core of Los Angeles. Dear Planning and Land Use Management Committee,

I am writing to you to express my support for The Alexan Project, as approved by the Director of Planning on July 28, 2016. I attended a planning meeting on October 25th 2016 to speak on behalf of the project and am somewhat disappointed that this project is still dealing with appeals and city regulations. I am strongly in favor of the latest iteration of the project as I am for all by right projects. I hope you agree and deny the appeal at the PLUM Committee meeting on March 28, 2017.

Sincerely,

Dear Planning and Land Use Management Committee,

Los Angeles needs more housing. Our rent prices are through the roof and vacancies are at historic lows.

Please help our families be able to afford to stay in the city they grew up in and love. Without an increase in density, you're forcing people to commute hours into work, or leave the state all together for a cheaper cost of living. We need more than 305 units - Increase the density and build MORE units.

I am writing to you to express my support for The Alexan Project, as approved by the Director of Planning on July 28, 2016. I am strongly in favor of the latest iteration of the project, which would create 305 much-needed apartment units in the urban core of Los Angeles.
