Dear Planning and Land Use Committee,

Thank you for your consideration up to date of alternative housing solutions such as the inclusion of Movable Tiny Houses within the ADU ordinance. I urge you to approve language for ADUs, including movable tiny houses.

I believe that Movable Tiny Houses are a beneficial housing option for my neighborhood because it is an easy, affordable and environmentally friendly way to help alleviate the housing shortage crisis in Los Angeles. Not enough is being done to make living in LA more affordable and this is a great way to help ease this terrible burden on the middle class who are increasingly at the mercy of wealthy land owners and landlords.

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you.

Sincerely,

Charles Blum,

I believe that Movable Tiny Houses are a beneficial housing option for Los Angeles because they offer a means to provide new housing units distributed within existing neighborhoods all across the city, without disrupting the character of the neighborhood. Additionally, income generated by hosting a Movable Tiny House can be a benefit to home owners.

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you.

I believe that Movable Tiny Houses are a beneficial housing option for my neighborhood because the house costs have skyrocketed due to unbelievably destructive gentrification . This would be an amazing way forward for artists like those of us at the "Brewery Art Complex"

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you.

HDear Planning and Land Use Committee,

Thank you for your consideration up to date of alternative housing solutions such as the inclusion of Movable Tiny Houses within the ADU ordinance. I urge you to approve language for ADUs, including movable tiny houses.

I believe that Movable Tiny Houses are a beneficial housing option for my neighborhood BECAUSE there are many people that want to live in affordable housing that helps reduce their carbon footprint. It also gives people an option to build a house that reflects their personality and is specifically designed to address their needs.

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you.

Dear Planning and Land Use Committee,

Thank you for your consideration up to date of alternative housing solutions such as the inclusion of Movable Tiny Houses within the ADU ordinance. I urge you to approve language for ADUs, including movable tiny houses.

I believe that Movable Tiny Houses are a beneficial housing option for my neighborhood BECAUSE

- Low wage workers need local safe and healthy places to live.
- Gen Xers like my husband and I have changed our mentality that we need a large home to live in when we'd rather travel and have more time to ourselves to do the things we are passionate about.
- Baby boomers looking to downsize need places to move into.

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you.
