**RE: BROOKSIDE REZONING- CASE NO. CPC-2017-4556-ZC**

Dear Councilman Ryu and the Planning and Land Use Management Committee:

It has only recently come to my attention that a vote is scheduled for April 17, 2018 by the PLUM Committee to rezone part of the Brookside neighborhood in a manner that would split the neighborhood- such that part of Brookside would be designated with the more flexible V3 zoning (variable mass) while the remaining part of Brookside would be designated with the more restrictive R3 zoning (rear mass).

I would like to firmly voice my objection to any vote to rezone Brookside in such a divided manner and to state that I strongly support the rezoning of Brookside so that ALL of Brookside is rezoned V3 (variable mass).

I am particularly concerned that this vote is scheduled to occur without any advance notification provided to the residents of Brookside informing us of the negative impact a divided split in zoning would cause to both our property values and feeling of unity within our neighborhood.

Again please consider this letter to serve as my personal statement in objection to the vote to split zoning in Brookside as stated above.

Sincerely,

Signed

It has only recently come to my attention that a vote is scheduled for April 17, 2018 by the PLUM Committee to rezone part of the Brookside neighborhood in a manner that would split the neighborhood- such that part of Brookside would be designated with the more flexible V3 zoning (variable mass) while the remaining part of Brookside would be designated with the more restrictive R3 zoning (rear mass).

I would like to firmly voice my objection to any vote to rezone Brookside in such a divided manner and to state that I strongly support the rezoning of Brookside so that **ALL of Brookside is rezoned V3 (variable mass).**

I am particularly concerned that this vote is scheduled to occur without any advance notification provided to the residents of Brookside informing us of the negative impact a divided split in zoning would cause to both our property values and feeling of unity within our neighborhood.

Again please consider this letter to serve as my personal statement in objection to the vote to split zoning in Brookside as stated above.

Sincerely,

Signed

**RE: BROOKSIDE REZONING- CASE NO. CPC-2017-4556-ZC**

Dear Councilman Ryu and the Planning and Land Use Management Committee:

It has only recently come to my attention that a vote is scheduled for April 17, 2018 by the PLUM Committee to rezone part of the Brookside neighborhood in a manner that would split the neighborhood- such that part of Brookside would be designated with the more flexible V3 zoning (variable mass) while the remaining part of Brookside would be designated with the more restrictive R3 zoning (rear mass).

I would like to firmly voice my objection to any vote to rezone Brookside in such a divided manner and to state that I strongly support the rezoning of Brookside so that **ALL of Brookside is rezoned V3 (variable mass)**.

I am particularly concerned that this vote is scheduled to occur without any advance notification provided to the residents of Brookside informing us of the negative impact a divided split in zoning would cause to both our property values and feeling of unity within our neighborhood.

Again please consider this letter to serve as my personal statement in objection to the vote to split zoning in Brookside as stated above.

Sincerely,

Signed

**RE: BROOKSIDE REZONING- CASE NO. CPC-2017-4556-ZC**

Dear Councilman Ryu and the Planning and Land Use Management Committee:

It has only recently come to my attention that a vote is scheduled for April 17, 2018 by the PLUM Committee to rezone part of the Brookside neighborhood in a manner that would split the neighborhood- such that part of Brookside would be designated with the more flexible V3 zoning (variable mass) while the remaining part of Brookside would be designated with the more restrictive R3 zoning (rear mass).

I would like to firmly voice my objection to any vote to rezone Brookside in such a divided manner and to state that I strongly support the rezoning of Brookside so that **ALL** of Brookside is rezoned V3 (variable mass).

I am particularly concerned that this vote is scheduled to occur without any advance notification provided to the residents of Brookside informing us of the negative impact a divided split in zoning would cause to both our property values and feeling of unity within our neighborhood.

Again please consider this letter to serve as my personal statement in objection to the vote to split zoning in Brookside as stated above.

Sincerely,

Signed

I understand that the Brookside neighborhood, including my street is proposed to be rezoned in the near future.

I understand the City Planning Commission has recommended R1R3-RG (**Rear Mass Only**) zoning for my block and for the 900 blocks of Tremaine, Keniston, Hudson, Rimpau, and for the 800-900 blocks of Mullen and Muirfield.

I understand the Planning Commission has recommended R1V3-RG (**Variable Mass**) for all other blocks in Brookside

I also understand:

1. That R1R3-RG restricts the height of the immediate front of the house to one story.
2. That the R1V3-RG allows a variable second story across a house.

Name, address, phone	I want R1R3-RG for my block	I want R1V3-RG for my block	I have no opinion
