Good morning,

Please be advised that my wife and I have been residents of Cheviot Hills and have lived in the same house for 17 years. We are strongly in favor of the R1V2 and not the BMO option for our neighborhood. Please understand we feel strongly about this issue. I appreciate your consideration and also your public service.

Andrew Lippman

I'm a contractor who lives in the neighborhood and I strongly believe homes should not overpower the lot. The current BMO is a reasonable compromise between scale for the neighborhood and profit for the developers. The homes should also add something to the neighborhood. Both modern and traditional designs can work, but with every spec house built being on top of one another and looking the same, we are fast becoming a tract development which takes away from our charm and the reason most of us moved here.

**Irvin Grant**

important that Cheviot Hills receive BMO zoning to preserve the character of this neighborhood

**John Manulis**

I am signing because the quality of a neighborhood is not measured solely by the quality of each homeowner's personal space, but also by that of our neighbors, and, by extension, our community.
