COPY OF A LETTER TO PAUL KORETZ

I have lived in Cheviot since 1965. & like many others am dismayed at the destruction of the charm & ambiance of this area.

I do not come to the meetings because my blood pressure would go offfff the charts.

there is something to be said for starting one's own community instead of destroying someone else's.

I would like you to know that I am totally opposed to these giant destroyers of space & light & form.

REGARDS !!
