Comments for Public Posting: I am writing in support of all supportive housing project proposals in the San Fernando Valley and specifically to support the housing project in Chatsworth (CD12). As a Studio City resident and volunteer advocate for unhoused people, I am aware of the urgent need for more affordable housing options for our neighbors in need. The research shows that the first solution to our homeless crisis is housing. The projects built and in development in Los Angeles have proven to be been safe and positive additions to their neighborhoods and I am eager to have more built as soon as possible. Thank you for your time and attention.

Comments for Public Posting: Housing opportunities for the homeless in the San Fernando Valley, and LA a large, are critical. Having worked with organizations that support emergency services as well as housing for those in need, I have seen firsthand the great challenges and hardships people face without the stability of housing and proper resources to keep the off the streets. Organizations have the capacity to help the homeless attain and stay in housing, but the places for them to stay are at a minimum. I support housing projects that give the homeless a chance for the dignity and safety they deserve. I hope you all do to! Thank you.
