**Comments for Public Posting:** On page 9 of the report in the section that states "Missouri Place Apartments": If I am reading this correctly the tax payers are paying over \$400,000.00 for each unit to house the homeless???? How can this be possible? There are working Californians that cannot afford to purchase a home for themselves for that amount. How many homeless people will be housed in each unit? Are these dorm style to fit 4 people per unit? Please describe how the City is planning to maximize the money coming out of the taxpayers pocket.
