This email is in regards to Chatsworth Park Elementary School.

It has come to my attention that there maybe a (7 story apartment for the homeless) to be build within 500 feet from our elementary school that my son attends. Are you aware of how dangerous and ridiculous this is? i understand the homeless and drug attics need a place for refuge and help, but NEVER would i think LA County Council would even let this this become a reality.

Are you aware of the drugs and paraphernalia that will be lingering next to our young children, and the amount of crime that will follow? do our kids need to see and be near this? How great will it be for young children to be afraid of coming to school with the amounts of shady people meandering around the school and police, and why would you turn a blind eye and not have this Homeless Center built somewhere where KIDS and parents are not around.

This has to be one of the more pathetic demonstrations of City Government with a shallow hand out for a dangerous buck.

I hope and demand you will not let this happen. I will be waiting for a reply.
