

**MOTION**

I HEREBY MOVE that Council AMEND the matter relative to a spill at the Rancho Park Drill Site to add the following recommendations:

1. DIRECT the Petroleum Administrator to work with Southern California Gas (SoCalGas) to report on the feasibility and present designs on ways to enclose the odorant equipment so that, going forward, if a similar spill occurs, it is contained instead of impacting the public.
2. DIRECT the Emergency Management Department to work with the Los Angeles Fire Department, the Los Angeles Police Department, the Los Angeles Department of Water and Power, SoCalGas, the Air Quality Management District and other relevant departments and utilities to establish an effective and reliable public emergency information communication system that allows Angelenos to access emergency information in real time; including a request that SoCalGas call Council offices immediately and directly when any emergency situation occurs.
3. REQUIRE as a part of the SoCalGas pipeline franchise for SoCalGas to thoroughly inventory and report back to Council on the condition of all of its infrastructure, equipment, machinery, storage tanks and pipelines and fix any in disrepair Citywide.
